Vouch for Xeria. We discussed his plans for this at length and I'm impressed at how good it sounds. Good luck selling this!

ScorpionOfWar - July 27, 2017, 3:56 am

Giving out any vouch copies? I could write a nice review for you. I would edit this post then.

Anyways GLWS

SIM-82498 - July 27, 2017, 3:58 am

Does it involve using one of those fake views/likes/sub sites such as EnhanceViews or AddMeFast? If not, I hope it's as interesting as it sounds if it works.

There is a segment in the method that asks the customer about his choice, do you want to be organic and EARN your stats or take the easy way out.

I covered both sides fully.

Ninetales. - July 27, 2017, 5:43 am

Here's my review of this ebook:

As someone who has taken the route of trying to make a YouTube gaming channel, I found this eBook to be a bit of a refresh... as to most of what I had already known. Being somewhat an active viewer on YouTube, I feel the audience for this guide would rather be for those who have absolutely zero clue about YouTube or how it works. This guide covers things like building and retaining a viewership, monetizing content and your 'brand', and a slew of other tips. With that being said, most of the information I had already known prior to reading except a few special ways of monetizing your traffic.

Xeria has helped me with my Youtube channel many of times. Legit seller and a great product!

Varane - July 27, 2017, 10:25 am

Xeria gave me a vouch copy, and well I was surprised. He gives you specific details about many things and how to instantly grow your channel. He shows you how to work around the system and benefit, the guide is really simple to read and I personally believe this is worth more then it is currently priced.

Deathy - July 27, 2017, 10:25 am

I got clickbaited.

That is all.

Fortunate - July 27, 2017, 10:31 am

Assuming from Ninetales' review this is basicly just an e-book about making gaming videos and getting audience?

Does this method include unsaturated ways of getting traffic?

Yes it does, this for people starting up or can't grow by themselves

Its a guide with mentorship included so I help also myself.

Dr. Gonzo - July 27, 2017, 12:28 pm

Vouch for Xeria runs alot of great services and works hard on them.

Out of curiosity that \$ means the video is monetized right? How much did you make from it? Thanks ?

It means the video wasn't showing ads I think it was because he didn't set his settings correctly. Also for revenue its not possible to really calculate it due to people using ad block you won't earn as much. But I usually go by 2k = \$1
