Thread: [Landing Page for your CPA/PPD Niches \(mobile games\)](#)

Pachu - July 27, 2017, 11:30 pm

Hi all, so i'm migrating from another forum (i'd better say expanding from there to here) because my mainly business resides on CPA/PPD and i just discovered there was a section for that on hackforums too, so great notice for me.

I recently shared a type of landing page focused on game hacks/generators that offer free currencies.

The idea is simple: you offer expensive currencies "for free" on the website and, in order to finish the process, your audience has to complete an offer.

In this case, this is an online generator for Clash Royale gems, but it is easy editable for any niche because i've formatted the code correctly, and it isn't obfuscated at all. It is fully available to suit it to your needs, even if you don't know HTML you can play with it to see what you can achieve.

If you want the download link, leave a reply below and i'll send it to you. I would like to see how many people are interested on these type of niches. I got a good stock of these online generators re-coded by myself to be easily editable and i don't have any problem at all to share it with anyone, but i want to avoid pure lurkers.

I connect everyday so i'll send the link as soon as i see your post.
