(Jul 28, 2017 05:24 AM)NikoRich Wrote: [\[CITE\]](#) Very good ebook that I'm sure you can make your money back with enough time and effort. Would be worth the purchase.?

=====

Quality: 6/10

The overall quality of this e-book is fair. Honestly, you could've gone into more detail and such but overall people will get the general point and will understand what to do.

Ease of Use: 6/10

The ebook is very straight forward but you do need to put time into it.

Layout: 6/10

The layout is plain and could've included screenshots to help the buyer but overall its an easy layout.

Grammar: 7/10

The overall grammar of this e-book is good.

Originality: 5/10

I myself have heard about this method and I honestly think many people have too but some won't.

Great ebook but even better support! Gives you all the information you need to get set up and you get help from the owner with anything you need. I would recommend it

Below I will write my honest review about this product. In no way shape or form am I at all affiliated with this product. I have bought this product for the 10\$ and am making a review.

The overall readability is probably the best thing this eBook has going for it. The methods included are the free methods you find all over the free money making ebooks section here at HF. You will never make ROI. If you do it will be within 2-3 years max. I am sorry to have to give such a bad review but I wanted to let people know about this product. If you buy this product, you will end up mad and wish you never did.

Why are you posting a fake review? Literally no one has bought the basic package. Only person that had purchased this product is a person I know personally. If anyone wants proof I can show my selly.gg sales and show (without the paypal emails) proof this guy has not purchased the ebook.

Oh hey! Its sno! Hey buddy! How's it feel to be scamming members of our discord and getting banned for it?

Nah man, not a fake review. The truth. I have helped you sell your other stuff in your discord while ago, and have no reason to sales trash, but don't want people wasting there money on public methods. I don't scam. You should read over the text history before accusing me and banning. Anyway GL with your sales and stuff.

lil rice - September 7, 2017, 9:44 pm

I know 100% you scammed Jay. And you lied by saying your paypal got limited.
