Thread: [Keep in mind guys the way of improvement is to realize why you lost](#)

If you want to improve you have to start looking at yourself and see what you did that made you lose

Alright so this game i basically destroyed mid got the junglers attention at all times and if i didnt i would ping where the jungler was going to be
i also took 2 inhibitor turrets all by myself but still end up losing can someone explain me what i did wrong so i can improve? ??

you cant win every game its notpossible sometimes there are feeders and afks especially if you have 2 people that went 0/13
when you look at your mistakes look at them play by play dont look at the whole game
id say the biggest mistake you made if you want to carry is pick morde just not enough carry potential but that doesnt really matter below silver
other than that 4/5 isnt really enough of a stomp for a full carry generally speaking

True but now i win matches like theres no tomorrow because i make toplane rage quit i always take both turrets at 11 mins and then whole enemy team is top so the rest of my team can push

Why worry about carrying norms xD. No one even really tries in normal games, and they are soo easy to win if you actually tryhard. Wait until actual ranked before analyzing games, there isn't much to learn from norms.

Best way to improve is by watching better players play your champion or role and compare them to your own play. Some sites to watch replays are op.gg or aof.gg .

Sometimes though you can just be unlucky with teammates and their bad decision making.

Although I could talk for awhile... In short, make sure that you transition your wins into other lanes. Don't just get fed off of killing your lane opponent, roam bot and help them get fed too (or just take kills and get even stronger)

And hey, while your bot you can get a tower too! Maybe even first blood tower for that juicy extra gold??

Perhaps you can even pick up a dragon while you swing down there, whatever works!

This is like the worst thing I've ever seen, Veigar going 0-16 and you got Aatrox going 0-13, this was so horrible, I don't ever wanna see this thread again.
