If this is your first ever edit, and it was done on an iPhone and it's actually really good for the gear you have, a little more practice and you can make amazing videos.

I was expecting an action porno with gf. I'm disappointed

Lukas - July 30, 2017, 7:54 am

It looks gorgeous there. For a video with no point, it still grabbed my attention simply for the scenery. Overall the video itself felt warm and in my opinion, the filter you placed on it fit well. Nice.

iNviZ - July 30, 2017, 8:02 am

Nice bro, where do you live it seems really nice?

Asileux - July 30, 2017, 9:30 am

I think it was a really awesome video man. Especially for you making the movie on an iPhone 7. It was really interesting and wherever ya'll were at is really beautiful. It was cool seeing all the different stuff and what ya'll did through the day. Looking forward to what you make next man. Keep up the awesome work.
