Thread: [Good singleplayer games on steam?](#)

Autowall - July 30, 2017, 12:07 am

Looking to pickup some good single player games with a good story line. Looking for games around 10-20\$.

Molino. - July 30, 2017, 2:34 pm

Hotline Miami and Hotline Miami 2 are probably two of the best single player games I've ever played, although it might not be for everyone (different play style than most games...).

Also try Dishonored or Fallout 4 (probably out of that price range), and Hyper Light Drifter.

Pillars of Eternity is pretty good.

andomort - August 2, 2017, 4:20 am

The Forest is a pretty fun, semi-cheap game and is singleplayer or multiplayer.

logi22 - August 2, 2017, 12:22 pm

If you wanna finish a game in two hours straight (that's really more of a movie) try Virginia.

EatMyMeat - August 3, 2017, 8:23 pm

o recommend getting skyrim or skyrim remastered i know its an ild game but its one of my favorite games of all time and i really recommeend you try it

MasterZer0xx - August 10, 2017, 4:49 pm

I recommend the saga of The Witcher. Good Luck :)

swami - August 11, 2017, 4:37 am

My favorite single player game I have played is "A Story About My Uncle" you can get it on G2A for under \$2 and with about 2-4 hours of high quality game play I would recommend it. It is a nice break from fps games and games that require complete focus.

noboh - August 11, 2017, 10:13 am

Sniper Elite is cool, you should look into buying it

FalloutGirl - August 11, 2017, 10:14 am

Mount and blade was pretty enjoyable for a solo/multiplayer game.

I am back and better than ever.

Atomic_3raser - August 11, 2017, 6:31 pm

All of the Batman games and all of the Bioshock games as well as Dishonored. You can find those for pretty cheap on G2A.

What was that? ???

Discomfort - August 21, 2017, 3:35 pm

Far cry 4, Hello neighbor or mafia II imo

hawk100 - August 29, 2017, 11:31 am

I personally love final fantasy XIII and euro truck simulator :)

Hello.v4.0 - August 30, 2017, 3:40 pm

I'm late as hell on this thread, but the entire Witcher series is on sale cheap. I recommend them all, but Witcher 1's first few chapters are a real casual filter.

Dr.Maged - September 20, 2017, 7:21 am

_nate - September 20, 2017, 9:31 pm

/wrists - September 20, 2017, 9:33 pm

THIS isn't from steam, it might be on steam cause steam has everything, but check the game localhost out.

john568 - September 23, 2017, 6:23 am

Good single player games I've played are:

Resident evil 5

Skyrim

Vampire the masquerade: bloodlines

Deus ex human revolution

BrBi - September 23, 2017, 7:46 am

I suggest you The last of us , really a great game with a good story

JumpT - September 24, 2017, 6:44 am

Dying Light which is both singleplayer and multiplayer is a really fun zombie survival game. One of

my all-time favorites. Has an alright story line but the combat and movement flow is the best part about it.

Linuxx - September 24, 2017, 1:54 pm

I like Dark Souls 3, but I can add Skyrim and Resident evil 5.

xenko - September 25, 2017, 1:46 pm

The Witcher 3 is, without a doubt, one of the best singleplayer experiences available.

He said on Steam. So... No.

Rafis - September 26, 2017, 12:59 am

INSIDE is a really good game on steam for \$20 (or ~\$10 on G2A). Downside is that there's only about 2-4 hours of gameplay. I suggest looking up a review without spoilers and seeing if it's up your alley.

Varius - September 27, 2017, 6:32 am

The metro series, Civ V (I dislike those that came out after), Dark souls 1/2/3.

I'm fairly certain you can buy at least one of those games on like G2A for less than 20\$. gl

qAzrael - September 29, 2017, 2:30 pm

The Witcher Series, The Elder Scrolls Series, Divinity: Original Sin 2 (Highly Recommend The Witcher 3).

Sydelica - September 30, 2017, 10:37 pm

I would say Skyrim and the witcher 3 :)

Injure - October 1, 2017, 8:29 pm

Roller coaster tycoon classic is great, so much nostalgia

RapeyDave - January 8, 2018, 8:42 pm

id recommend the witcher 3 any day
