T.O.S

- No refunds
- The traffic source is expandable. If customers "saturate" one of the usergroups in the traffic source. It won't get overall saturated. You'll have to go and create a new usergroup or join a nice niche!
- If you bought the standard package I will answer PMs, but probably not as fast as if you got gold package
- No leak of information of this guide is allowed by any customer.
- I have the right to change the T.O.S any time I want.

Proof of Earnings (January 2018):

Vouches:

(Jul 30, 2017 04:26 AM)Kashira Wrote: [\[CITE\]](#) I've received a vouch copy of this ebook and am doing a simple review.

Quality 9/10: It's an easy read, easy to comprehend, and quiet easy to do.

Methods 8/10 It explains creating your persona, and how to setup Kik, and surprisingly shows a traffic source I wouldn't have thought of. This ebook also shows you an easy way to photoshop for verification pictures, as well as how to maximize your profits.

Grammar/punctuation 10/10 It's very much readable and understandable.

Overall 9/10 The method in which he tells you can earn from most likely works, and the guide is perfectly detailed so you know what to do.

Surprisingly one of the "good" ebooks that I've seen on HF from users like this.

(Jul 30, 2017 03:36 AM)champagnepapi ? Wrote: [\[CITE\]](#) OP decided to give me a vouch copy and i'm saying that i'm in no way affiliated with him and this is my review,

1. Really good explaining on how to create a profile and everything that is needed to.
2. The use of photoshop is explained in really easy steps.
3. Never seen the traffic site here on hf or any else where,so i'm going to give him the most credits

for that.

The designing part tho i can't say was really clean and structured but if you're not a graphic freak you'll be pleased plus we're looking the method here not the graphics.

The english might have been better but it's still pretty understandable,overall i'll give it a 7/10,pretty much all needed information in one ebook. Going to update when i make the first profit of this method.

Originality 9/10:KPG shows you how to setup your Kik, helps with Photoshop verification and gives a few methods that are guaranteed to make money.

Method 9.5/10: This ebook is great for beginners looking to start e-whoring because he explains the method well and shows you how to do it.

Design 9/10: The layout is simple, not hard to read at all.

Conclusion: This eBook can make you a lot from eWhoring from the method he gives you, to Photoshop verification for people.

Good luck with sales.

Note for this particular Vouch: reduced the price, deleted one of the bonus methods, and writing on a new bonus method now.

No Problem my friend. I know that 50\$ sounds like a bit too expensive, but like charcoal says, it's actually a pretty unknown traffic source, you will safely go beyond the 50\$ you've paid.

But wait if you want, I am also waiting for the reviews of the vouchers haha.

Looks interesting... But I always ask myself why do people share these things to actually saturate the market then in turn lose out on making money

.KPG. - September 17, 2017, 1:50 am

Hi CrashpiG!

This is a Salestread, posts from members except me are only allowed for giving feedback.

But to answer your question anyways: I don't want to saturate the market. The traffic source I'm talking about is very very big, but yet there are not many "e-whorers" using this source. You could even make this source "BIGGER".. Anyone who bought the guide will get that now :D! It's not my intention to make my personal traffic source saturated.

Regret - September 17, 2017, 4:51 am

I'm no longer interested cause I used to e-Whore in the past. So yeah, I could leave a vouch review if you want.

Looks like a legit thread btw.

Hey, I'd like to ask you how do you use the money?

For example let's say you sell on Selly a premium pack. You withdraw the money to your PayPal - then what? You can't just send the money further to your bank account right? What if the bank or PayPal asks what have you been selling? Also, if you send the money to your credit card there will be questions regarding the source of the money because of taxes.

Is there a way around this?

There's no problem in selling knowledge (in a form of an ebook) on selly / rocketr, but I don't know about the packs^^. But yeah to be safe, I don't withdraw the money. Most of the time I invest the money I got from the sales here into getting more knowledge here on Hackforums. Sometimes I use it for Games :D It depends! You have many options to use paypal^^

Dude^^ First of all, I am a man who is in another time zone, ALSO I have to go to work and also have a real life. I am sorry that I can answer only now.... Writing you a PM right now^^

The source is EXPANDABLE. You'll know what this means. But you don't know the understanding of SATURATED^^. It's not saturated, you can see that there are only a few ewhorers there. You also said you made 100€ in the first day, but the other day nothing, this means that you could fix that, the traffic works. But because I didn't have time yesterday you call my product saturated^^. That's sad to hear.

Telling people to not buy my guide because you made ONLY 120€ as a complete ewhore noob(he said that in a PM, that's more than you even paid for this ebook) just makes you not a very likeable person i'd like to help. You bought the STANDARD VERSION and you get mad if I answer one day later... poor.

Edit: There are tons of money making ebooks here from users with high rep that don't even give you the money back you invested. Basically you see a lot of shit here. My ewhore guide is the most detailed information on how to get customers to buy. I've put much effort in the detail of information, the design and so on. You should be grateful that you made 120€ from it without having any experience as an ewhorer. Back in my days when I started I could barely make 10\$ from a person.

Don't be a dick.

The source is EXPANDABLE. You'll know what this means. But you don't know the understanding of SATURATED^^. It's not saturated, you can see that there are only a few ewhorers there. You also said you made 100€ in the first day, but the other day nothing, this means that you could fix that, the traffic works. But because I didn't have time yesterday you call my product saturated^^. That's sad to hear.

Stop waisting my time. If you want to make money with my guide. Be creative. There are tons of members in this source. You could easily pull traffic. You don't even have to go to the places I recommended there. There are sections like gaming and stuff where you could post your ad. This is enough support. You easily got 120€ for spending 24,99\$ for this guide. Be grateful.

Hey orgiaREBORN!

Sorry bruh, no ewhore pack comes with that, but here are tons of free packs (with verification pictures) that can be still used for this traffic source, as ewhoring is pretty unsaturated there!

You'll get a 17 pages long eBook with really really detailed information, step by step guides with

screenshots and everything.

There's a verification method for photoshop included (for packs were you don't have pics of her holding a blank paper).

I'd suggest you to use a free pack you found on HF (or join an ewhoring discord chat / skype group) to get some. If you want to make maximum profit out of paid packs, you'll have to have some nice experience in SE first! :D

Vouch for KPG, he knows Ewhoring, his guide is my favorite.

(KPG I bought Gold 7 months ago but lost that PC, if you wanna pm me the current guide I'll write a 1-page vouch.)

This is probably the top Ewhoring book out right now :)

The book is clear, and direct with private methods/aproaches and includes extra methods to enhance the primary one(s).

Good luck with sales KPG! :)

Little FAQ

Q: Is this for Snapchat or KIK?

A: You can use the traffic source for almost anything you want to ewhore with. The guide though, is for KIK.

Q: Does this still work?

A: Hell yeah it does.

Q: Can the source get saturated?

A: Nope, it's freakin big, but no one really started e-whoring there until I did. But nope it can't get saturated, because it can grow!

Q: Can I pay with an Amazon Gift Card?

A: If it's a working GERMAN CARD, yes. If not, nope
