Thread: [4 Important Things for your Ewhoring Business](#)

goodleadjob - July 30, 2017, 7:27 am

Hey everybody!

I will not make a long guide here, just simple Check-List of what you need to take care during Ewhoring. It is very simple but if you REALLY FOLLOW these simple rules you will earn very good!

1) Test your traffic sources

Every site you are going to use for Ewhoring check here <https://www.similarweb.com/> , and you can see how much traffic it has and which countries. Countries you need for Ewhoring: USA, Canada, Australia, UK , Germany, Netherlands, Switzerland. Look how much traffic you have got from these countries.

Then create Kik account for each traffic source to understand where you get most of your buyers. This is not MUST DO thing but it is very very useful to know cos when you posting everywhere you do not know where you get your buyers from and if you know where they are from you can only use QUALITY TRAFFIC. You need to do it because Kik reset all the time and you do not need 500+ low quality chats but 20 and most of them could be your buyers.

2) Spend Time SE your buyers.

If you see a guy is interested in your service do not hurry up selling him. You already suggested to buy from you and if you will be pushy that won't help. Best way is to talk to him make him more horny, send him some pics and naturally sell till he ask you how to pay. That is how I usually do. The most interesting part - after you sell something try to make him fall in love with you and then SE him every week for 100-200\$.

Create a different account just for your buyers on your phone or laptop and talk to those ones who bring you money. You will see how great it is for your income cos as soon as you have men in love with you - that is where the REAL MONEY is being made !

3) Hunt for new Ewhoring Packs.

I have recently hit 360 returning buyers into my list. And I always contact them again and again from different Ewhoring Packs. That is what each of you must do. This is the most important part of your Ewhoring business. That is why you need always hunt for new unsaturated ewhoring packs and should get at least 5 in your portfolio to make good money from your buyers list. That is extremely important.

4) Never scam your Buyers.

I have heard a lot of people do double dip or just scam people. This way you not gonna earn a lot in Ewhoring. I always provide best service for my buyers. if I do not have the video my guy ordered so I go and look for porn sites the video without face and I always send what I have promised. The same

thing about Skype Shows. You think this is not impossible to do? It is just very possible! You just need to have a good pack for that. I have vids of girls who doing a cam show. So what I do? I just SE my guy saying that I am already masturbating and gonna just turn on my camera and show you everything during 5-6 min. So I just use ManyVids and Run this video and that is it.

All those guys you will provide 100% quality service will be good to buy more from you and from your other ewhoring packs cos they were not scammed before and only had positive experience. That is good for you as well as for other ewhorers.

P.S I am sorry if My English is not perfect, it is just not my native launguage.

Have good earnings. I will post more tips as soon as I get inspired again)

If you treat this like a Real Business it helps you to set your mind in a right direction which is defenetily helping with earnings. I know some Ewhors make 10 000 \$ a month so is not that a business?)))

No, it's not a business. It's catfishing for money which is highly illegal and could land you years in jail if caught.

I thought about contact buyers with a different pack, but how do you get things done? I mean, do you just send him a message? How did you find him?

That is where your SE skill will be needed. I usually do not even say where I found him just straight to the point that I sell)) if he asking me where I got his kik I either ca nsay that my friend gave me which is your previous whoring packs (but ony if you did not scam him before from that girl) or I just tell there kik names of men like you are all over internet and people share it all over the internet. Or you can just pretend that you do not actually remember how and wher you got his kik name which is the best answer. Anyway you need to be creative and it all depends on a person you added again, there are different types of men so be careful lying around;)

I disagree with #3

I've been using the same pack since I started and the only situation I see using a new pack is to milk someone who already bought from you by introducing them to your "friend" aka other pack.

Maybe. But we are considering this a bussines to make money. It's not "highly" illegal, just identity fraud, wich won't let you land in jail for "years".

Also, I disagree with #2. The more time you spent on a customer, the more customers you loose because you're talking too much.

This IS highly illegal. I'm not trying to pull anyones hair but I am just trying to get the word out so you know its risks.

Here are the following things you can get charged with:

Mail & Wire Fruad

If a man sends you money or gifts so that you can visit him when you never intended to do this in the first place, this is considered mail & wire fraud, which is a federal crime.

Emotional Distress

If the woman in the images that you were using discovers that you were posing as her and sullyng her "good name", she could claim that you caused her emotional distress in court.

Identity Theft

In addition to copyright infringement, using those stolen images to pose as someone you are not for the purpose of deceiving them into giving you money is identity theft.

Copyright Infringement

If you stole someone's image and are using it without their consent (especially for "commercial purposes"), this is copyright infringement.

Fraud/Misrepresentation

If someone signs up to a cam show that you claimed that you were on when in fact you were not

really the one in the photos to begin with, this could be considered fraud.

Mail & Wire Fruad: Not everyone does this, only little kids.

Copyright Infringement: These packs are mostly found all over the internet or packaged with the girls knowing.

The others ones are correct. But i've never seen someone get fucked for this.
