Thread: [Purse.io 1st august fork](#)

ShyvHD - July 30, 2017, 10:48 am

I have 100\$ worth of bitcoin in escrow on the site purse.io.

What should I do regarding 1st of August's fork... Should I cancel the Amazon order?

Malentor - July 30, 2017, 10:52 am

cancel and withdraw the coins if you have that option.

Well I can't withdraw the coins I don't have them yet. Those are being released when that guy gets his items.

Read my thread here: <https://hackforums.net/showthread.php?tid=5680261>

I think I read purse is supporting the UASF so you should be fine. Do you control private keys on purse at all? Haven't used them so idk.

PHANTOM - July 30, 2017, 2:43 pm

Don't worry

Purse supports this, You are fine
