(Sep 5, 2017 06:14 AM)Heulen Wrote: [\[CITE\]](#) is this for PC too? also, is the chance of getting banned high? Yes this is for PC and there is a very small chance for a ban but Ive done 10 recoveries so far and no one has been banned yet. If you follow these steps you shouldnt be banned.

Dont spend more than 25m within 24 real life hours not ingame hours
Dont spend the 25mill in the same session/lobby
Dont gloat about having a modded account

If you join my discord server you will see all the people that have bought my services and you can ask them for yourself aswell.

Again, if you are uncomfortable with this post for any reason OP you can PM me, I do not do PC at all so I am definitely not taking your sales I am just trying to guide anyone who is looking for this for xbox in the right direction. Good luck with your services.
