Thread: [UUID = 3645486 | Flaming & Threats | False Information in Sales](#)

Wet Rag - July 31, 2017, 8:12 am

Can't believe i'm making a community alert over a multi, but I don't take threats lightly.

User posts an account sales thread: <https://hackforums.net/showthread.php?tid=5674611>

Claims that accounts can't be recovered if he gives original email (Which is a complete and utter lie), I neg him because of his poor business ethics.

He PM's twice flaming/threatening me.

I would not recommend dealing with this user at all.

I'm sure if Mr. Robot did some digging he can easily find his other account.
