Views' Middleman Service

I am offering a middleman service. Read the information below before messaging me.

Note: I charge because I frankly don't have enough time to service everybody. There are alternative options available if you need a free middleman.

Pricing

I have some leeway with my pricing.

Here are my rates:- Deals below \$100: 0% (FREE) tips are accepted- All other deals: 2%Here is how the fee will be distributed:Half of the fee is added onto the amount that the buyer will send.

We will deal.

I will deduct the fee from what I've received and release the remaining funds to the seller.

Terms

I will not be responsible for anything that happens outside of the initial deal with myself as the medium. I also have the right to decline service for any deal. I will also not take a change in heart lightly - if you waste my time, you probably won't be able to use my services in the future. Be certain that you'd like to go through with a deal prior to contacting me. The fee is non-refundable. The only currency officially supported at this time will be Bitcoin and any altcoins, but some exceptions can be made.

Assurance

As with any other deal, any party will have some lack of trust. [However, you can rest assured](#) that I will not do anything out-of-order and your deals will be finished with haste. At the end of the day, it's your decision to trust me, and yours only.

Vouches

If you've used my service, feel free to leave a vouch. Would you like to view all vouches? ([Click to View](#))

Yes I can hold BTC or accounts or both.

I won't hold onto PayPal though as it's too much of a high risk.

I'll be online if you have anymore questions, I'm usually online most the time.

I was out of town for a week so wasn't hosting the middleman service as communication would've been limited, sorry to those who contacted me that I couldn't get too.

If anybody needs help now though I am available again.

Views - August 30, 2017, 3:57 pm

I figured I'd update this with some information around skype.

I need PM confirmation from both parties taking part in the deal and all parts of the deal will be done on site, ex: sending info/payments.

Skype is only used as a means of communication during the waiting process, confirmations and so forth.

I don't offer any blackhat things on Hack Forums, if you'd like to find members doing that it'd be best to look in the Buyers Bay or Partnerships section.

I'm currently available to middleman for anyone who needs it, and I'll be online for awhile.

I can complete this deal for you via PM if you'd like although their is a 2% fee, (\$6) if that's alright with you link me the other party or send me a PM.

Hope I can helpout.

EDIT PM is disabled so just post your skype and have them post theirs here and we can make work of it.

Temporary edit until PM system is functioning again, my only Skype is ViewsFromThe6ixx & my XMPP is Views@Hacker.im

No problem, either way it's good you got a safe deal :)

If anybody else needs assistance while PM is down, you will have to post your skype and then link the other member, and have them reply with their skype and then I'll contact you both, via the skype I posted.

Views - October 24, 2017, 11:01 am

I will still be online and middlemanning although I wouldn't advise dealing on Hack Forums while reputation, trust scan and 2FA are disabled (will be fixed in the next few days) BUT for those of you who need a middleman I am here. Stay safe.

Views - January 18, 2018, 2:59 pm

I'm still here and down to middleman deals whenever needed wanna get more active again so I figured I'd post here since I haven't updated lately.
