lol the price of BCC (Bitcoin Cash) is going to tumble into nothing tomorrow.
I, too, am looking for a place to dump BCC.

I think bittrex does trade BCC, if someone can confirm this

Bitfinex ?

It seems they will add it after the fork

I already dumped all the BCC I had on Yobit as they enabled it earlier today.

Bittrex will probably enable it tomorrow too, however I'm pretty sure it will crash HARD. I don't think is a good idea to dump it tomorrow.

Appears they will consider it, not guaranteed though.

Quote:There is no guarantee that any markets will open to allow BCC assets to be tradable on Bittrex exchange.
