My aunt is a lawyer and told me its down, so I went on ti checked source and it was running a 3rd party js script and denying everyone web access.

Heres a pastebin someone tell me what this does i dont know javascript this is affecting 1000s of atteroneys.

Infected site: uscis gov

Infected pastebin (not infected just code): pastebin com/HG09sfXb

Infected site with the code: alecyueee us/content/content (dot) js
