Thread: [Selling my Zyklon HTTP botnet](#)

PolybiaMP1 - August 2, 2017, 12:19 pm

Hello, I will make it short as possible..

I am selling my zyklon http botnet (TOR version)

Everything is set up and ready for use, it is a zyklon HTTP botnet, tor version with 60 bots loaded (for testing purposes)

<https://hackforums.net/showthread.php?tid=5495620&highlight=zyklon>

I have Hostsailor VPS which is paid until 28/06/2018 and after that it is \$59.88 a year.

Since its TOR version you dont have to worry about your domain getting detected :)

My price is 150\$ (BTC ONLY)

I will transfer everything to the buyer, (zyklon builder login, zyklon botnet login,VPS login,VPS panel login)

please if you are interested PM me.

May I ask why you're letting go of this?

PolybiaMP1 - August 3, 2017, 3:28 am

Because i want to buy Zyklon loader :)
