Note: I will not be answering personal questions only those that I feel can bring benefit to other members.

Hey so recently I've been seeing a lot of newer members be taken advantage of along with a lot of members that simply just aren't regulars around here.

I wanted to open this help desk for those of you who are new and have troubles around the site, I joined in November 2015 and since then I've made a name for myself around Hack Forums.

I know a lot of members have trouble in the marketplace and around smaller site policy's that aren't noted too well in the help documents, during my time in the Red Lions I became very fond of site policy and would be willing to help those of you who don't want to bother anyone with your smaller questions.

I'm also willing to help around dealing advice (methods, what not to buy, is this guy trusted? Would you deal with him?)

I've been scammed once before in December of 2015 but since then I've had no issues in the marketplace and can say I have a pretty good sense around who to deal with, even if you're feeling lazy I can do a trust scan search along with UID as I know everyone is told to take these precautions but rarely do I also provide free middleman services for any deal under \$100.

I am online a majority of the time and can be contacted via Hack Forums PM and will always respond to users questions around any material Hack Forums related.

You can post below or PM me and I'll respond as quickly as possible.

how do i get that many awards?

Energy Wizard - August 2, 2017, 5:50 pm

Okay so I know about <https://hackforums.net/bans.php> but how do you know about members that aren't listed there? I've been too embarrassed to ask anyone.

Awards can be purchased from the Buy awards tab located in the extras page or the link below.

<https://hackforums.net/buyawards.php>

iHydra Novica and Maxim control the Graphics Masters award which is given away monthly, and 'Fox and I control the Fox and Eclipse awards respectively.

Other awards can be obtained by performing certain tasks for Omniscient such as a few of MeshCollider's awards around OMC and most recently his diamond award for continued assistance

with the HF API.

NightForce - August 2, 2017, 5:54 pm

Vouch for Views I know I can personally go to him if I need any help or assistance. Best of luck buddy. :D

Every 72 hours bans are removed from bans.php and that's due to HFES and other scripts logging every past banned members reason, Omniscient prefers that only the last 72 hours are viewable but most of the time if you search through the weekly reports thread you can find a reason for those who have been removed after the 72 hour period.

I noted on the OP I will be responding to all questions, although this one isn't really a good one, if there's anything I can help you out with feel free to ask and I'll do to the best of my abilities to come up with the right answer.

Varane - August 2, 2017, 7:35 pm

Why are you so extra? Since you are answering every question that is asked.

Views - August 3, 2017, 11:46 am

Updated the OP.

If anyone has any questions that aren't personal to me but directed towards Hack Forums feel free to ask, (read the entire OP) won't be responding to trolls but I'm here to help those who need it.

Hey there Views!

I've been lurking around on here for a long while now (July 2015!!!) I've purchased/had success with eBooks, business, remote administration tools, crypters, mentoring, cracking, etc. Although I'm not an expert at most things, if you can name it I probably have taken a shot at it.

What I want to figure out is how to really immerse myself into the community. I want to have an impact on here, have people ask for my opinions, and eventually I want to get to the point where I can release my own eBook - I've come up with a few unique ideas. I know that this may take awhile to achieve, but I'm here for the long haul.

If it helps, my specialties include business/money making & gaming (ELO Boosting for LoL).

Let me know if you have any tips on where I should start - I plan on getting L33t and the Emerald to let everyone know I'm committed. Thanks so much for this thread, I really appreciate it.

Appreciate the high quality response and someone using this thread for what it's designed for, your best bet to get started around the community would be to upgrade, maybe choose a shorter more memorable name, KlooperTrooper is a bit long and doesn't come off the tongue as easy, once you upgrade to L33t you'll be taken more seriously if you choose to apply for a group, if you would like to start a ELO Boosting service on here once you purchase leet helping members with that can help you get around more post on whatever topics you feel you know about and more members will see you around the forum, whenever you feel your ready to apply for some groups via the Groups and Crew subforum and put in your best possible application if you put time and effort into it most of the time you'll be accepted.

Groups are where most friendships stem from on this site, if you'd like too a few have public discords such as Notorious and The Entrapreneurs, just treat others with respect and eventually you'll receive the same.

Hope you find this a good answer and if not feel free to ask more if there's anything you feel I missed.

What do you do for a living that allows you to be on HF so much?
Also how'd you get your own award?

Glad I could provide you with the answer you were looking for, seen that you've been upgraded to L33t since then goodluck.

I'll be online if anyone needs any help.

Kinda weird question : How do you grant other members the Eclipse award? Do you have access to a special page?

And real question : Do you know what the trust scan feature was removed from leet? I remember having access to it when I first had leet but it's been removed.

1st question isn't too important but to answer the second question it was temporarily enabled for all members for a short period of time as Omniscient wanted to counter something else that happened.

Some references on it can be found here.

Your best bet would be to PM a staff member with any evidence you may have and see if they can find anything on their end as they are most capeable of finding out.

If your known to help a ban evader you can get closed/banned for assisteninv them, and staff reports are always anonymous so it's best to stay safe.

Back again with another question! When it shows the members viewing a forum or thread it shows an asterisk next to some of the names, what is that for? My guess is that when a user doesn't have one that they are alt-tabbed.

that's for members who are set to appear offline, only Ub3r members see them on the online list.

Leet/regular can't see so gives Ub3r members more privacy.

It seems you've already received your upgrade, I personally don't exchange PayPal for BTC to help members upgrade but can provide a bunch of ways to get BTC if anyone is having a hard time upgrading.
