Pretty good. Simple with nice colours. Well done.

are you a legend or what? Start taking orders for design and get them fat stacks in your bank account.

Title (aka logo) should always be larger than the text below.

Either make it bigger or size down the text below.

Sorry. But I don't follow the rules when they are not needed.

There's no logo or title and it doesn't hold any value.

I increased the size of whatever I deemed more important than following the rules and not experimenting

You clearly don't know basic rules of graphic design.

I recommend you take some time to watch basic tutorials on websites such as YouTube.

Like I said. I don't follow rules
because I know them clearly.

Before making any direct and bold statements like this.
Get your facts right

If you are going to keep following the rules in your life, good luck with getting your name out.
I'd rather experiment and have some fun

simple but it works, nice colours

Solfire - August 3, 2017, 1:32 pm

Very simple, and the design is eye-catching. This is pretty good for just 30 minutes' work.

Don't link to sales threads outside marketplace.

Thanks.

LANCE - August 3, 2017, 3:43 pm

Nice choice of colors and very simplistic. Great job on your attempt.
