Thread: [\[AUTOBUY\] \[GDI+\] \[VB.NET / C#.NET \] Premium Themes | Huge Number Of Controls.](#)

Narwin - August 4, 2017, 2:44 pm

Intruduction

This is my first selling thread for the .NET themes, the following themes are the .net themes which created in Visual Basic.NET and C#.NET languages, all of these are the result of a lot of hardwork for months, all of these are created in highly advanced methods and user friendly, based on bootstrap themes.

Performance of these themes ?

Nearly every single object that implements the IDisposable has been disposed which makes the themes run quickly.

FAQ

Warning :

- If you have any question on the theme(s) that doesn't exist in FAQ ask before buying.
- After you read everything try to buy.

Spoiler [\(Click to View\)](#)

How do I pay for the themes ?

- For now I only accept bitcoins & Ethereum.

Process of buying?

- You must pay before receiving the theme(s).

Vouch Copies?

- As the request from a users (trial obfuscated.dll).

Do you offer support?

- I offer support in (HF , Skype , Discord) for one week (after that it's optional for me to support) , but I'm not oblige under any circumstaces to edit these themes controls if I'm not interested.

How I can buy ?

- 1st reply to the thread then Under any buying section of themes there is a link that redirects you buying the theme.

Can I refund?

- No. I'll try my best for fixing any problems you may have, but there is no refunds so that make sure before starting to buy.

Notice

- The Amount of selling for each theme is limited (I don't sell many copies of each theme).
- The Colors of all these themes controls (except "DarkUI Theme") are customizable.
- Every theme(s) controls contain some properites that every single property of them has a discription and catigorized.
- If you want to see the properties of a certain control(s) before buying let me know , I'll show the diagram of the control(s) methods and properties.
- TOS (Terms of Service).No Refunds (Payments are final).
- You must pay first (before receiving the theme(s)) (I'll Send you the source after I got the money).

You're not allowed to share your source(s) including any of these themes.

You're not allowed to sell your source(s) including any of these themes (you're have the ownership for your sources not my theme by buying any of these themes you only buy a copy no the ownership).

You're not allowed to sell or re-sell the theme(s).

No sharing or Re-Distribution or make publicly available the theme(s).

I will not be under any obligation to customize or edit the theme(s) or controls if I'm not interested.

I have the rights to change or remove the current terms (TOS) or add new ones.

I have the rights to change the prices if I want..

I WANT ALL OF THEM !!!! :(((

They look so nice really ! Awesome work !

I will buy some of them asap !

Regards

Thow - August 7, 2017, 3:45 pm

Damn man, that are some nice themes you got over there.

If I ever need one, I will definitely buy one from you!

GLWS!

Sooooooo, that's why our gdi server are quite huh?

Anyway, its good! Really, I saw some not appealing one, pixelated edges but overall, they're nice and worth the price.

?

P4R4DiSi4C - August 8, 2017, 1:27 pm

Hello,

I bought the #15 : Spin Theme . Deal went smooth. I'll post my review asap with some screens.

P4R4DiSi4C - August 10, 2017, 10:26 am

Hey,

Just took a bit of time to enjoy the theme and write this review :D

First you should know that Narwin is a great professional and does an amazing work ! Those themes are awesome, a lot of hours to achieve those and they are all well commented (based on my experience with this theme).

I bought the Spin Theme...As you can read it has A LOT of controls ! I didn't test them all yet but I'll do in the future ! All or "most" of the controls options are well documented and there is some cool customization option like "On hover color" "On click color" etc...That's really sick !

Here is what I was able to achieve really quick without needing much effort:

Since I didn't tested all of the controls yet, I just went with some controls that I liked from the Gallery like the "Metro Panels" aswell as a "Status Bar" and some really cool "Alerts".

I love the fact that everything goes well between each objects like the checkboxes and comboboxes.

I'm looking forward to use this theme in a "bigger and real" project and take the time to check out each control.

What I can say, is that im really happy with the theme itself, Narwin is a great guy, he directly asked me if I encountered any issues or if I needed help. I know that he will be there to reply to any questions I have and his work deserves to be seen !

Thank you for everything Narwin ! Keep up the good work and I wish you good luck with your future sales !

Cheers ! ?

All of these themes look absolutely AMAZING! I personally would use most of them especially "#15 Spin Theme" because of the amount of controls and how customizable it is. I do understand that these have all had a lot of work put into them but I do think that some are slightly overpriced. If they were cheaper / discounted I would purchase one asap :P Anyways, good luck with sales op! :D

I don't think so, in many places you see .NET controls even just with .dll and not open source by multiply the prices I offered.

besides I tried to pm you but your private message disabled for non-friends.

nyugenius - September 8, 2017, 6:24 pm

Hello ladies and gents, allow me to provide a review of my recent purchase of: #15 : Spin Theme (54 Controls).? It was a smooth transaction, Narwin is a pretty cool dude, easy to talk with, prompt communication. After I purchased the theme I unpacked it like a early birthday gift and dived head first into the C# and VB .NET source files to see what's under the hood, and I must say "WOW", a lot of work went into this theme pack! Detailed is the word I would use to describe it. Before I came here I was considering on purchasing the Bunifu UI controls but the moment I laid eyes on the themes Narwin offers I changed my mind completely. They all look great but #15 took my heart. It was a good deal; 1 time purchase, 54 amazing fully customizable controls, source codes in C# and VB.NET and a obfuscated .dll file of the theme. I no longer have to be browsing the internet for these controls or the source code used to build them. I tested both the C# and VB.NET along with the .dll and they work fine with no issues. Again, you're able to customize them in depth. Lots of properties to mess with.

SIM-1847363 - September 16, 2017, 12:32 pm

Wow these themes are amazing! Once again the work must have been hard to get these themes so perfect. Nice work man!

Narwin - October 11, 2017, 6:37 am

Guys wanted to let you know, for some reason these prices will be increased after 3 day and on, so that if you want you buy you can order it before that.

Edit :

The Prices increased.

TOS updated.

I don't provide the .dll for the themes anymore.

M?xim - October 18, 2017, 8:52 am

Bought a theme and used it, worked good and all that. But it's a waste of time buying a theme.

You cannot sell ownership if your source includes one of these themes. You are basically purchasing it to use for the moment. Which is kind of stupid if you ask me. But I guess that I agreed to the terms of service.

Narwin - October 18, 2017, 4:26 pm

(Oct 18, 2017 08:52 AM)Maxim Wrote: [\[CITE\]](#) Bought a theme and used it, worked good and all that. But it's a waste of time buying a theme.

But I guess that I agreed to the terms of service. You want to have the right for re-selling the source of 32 controls that you got from for 45\$ for deep review and just watch your review and see how deep is your review even after 10 days.

You want to sell the source to someone that didn't purchased form and what if he/she doesn't obey to the TOS and he/she doesn't force to do that cause he/she bought from you not me.

You didn't even talked about this with me and you even -rep instead of replying me while I messaged you many times.

I didn't forced anyone to buy them from me , and you are the only to say that while I think unlike the other customers I ensured you once again in PM to let me know you're agree with terms and you showed your agreement(but you broke it).

IllegalSkills - November 19, 2017, 5:38 pm

These themes DO indeed look very nice and professional, but these prices are absolutely egregious. Like, I understand that it takes a lot of time and effort to make these, but dude, come on.

It's actually quite laughable that people will purchase stuff with excessive prices like these. Don't take this as like sales trashing or anything, it's just that I highly recommend you to change these prices. Good luck with sales, nonetheless.

Narwin - December 26, 2017, 3:17 pm

Guys just wanted to let you know that I'll stop selling these themes from : (Saturday, January 20, 2018) and after that period I won't provide support.

Best Regards.

Edit :

Selling any of these themes already stopped, I don't have the plan to sell them anymore but in case of high prices, good luck everyone.

Best Regards.
