(Aug 4, 2017 11:56 PM)Woes Wrote: [\[CITE\]](#) Just took a look at this E-Book and I rate it 9/10

It is extremely detailed and takes the reader step-by-step through the process of becoming a master online seller. It informs the reader on how to take advantage of large site's resources and make full use of them. I don't have time to get through it all atm, but possibly in the future I'll make time and improve this rushed review. But anyways, nicely done OP! I'd recommend this to anybody looking for a way to make money online.

66 pages of quality content, personally I haven't tried this method but what I can say is, I see a huge potential in this if you place work in this method. From all the eBooks I've seen this is probably the first I've seen this in terms of how to do it, but the method itself I've seen rarely and not often.

The eBook has some pictures and some indications on the instructions which makes it nice to read! I didn't expect it to have detailed instructions but overall I give it a 8/10. But I assure you if you place effort in this you will succeed!

Ease of Use: 7/10

There is work involved in this method, it isnt a £500 in the first day, OP gives you step by step on how to set everything up.

Layout: 10/10

The layout is very easy to understand and there is pictures which really makes the difference

Grammar: 10/10

Couldnt find any grammar mistakes :)

Originality: 8/10

I know of the method but probably wouldnt beable to do it without this ebook if im honest.

Ease of Use: 9/10

Work required, though with step-by-step instructions from OP, you are guaranteed to understand what you need to do in order to achieve success.

Layout: 9/10

Easy to read, though could have more flair. Rated 9 as it's perfectly understandable and as it contains proper grammar which I see as a huge plus.

Originality: 9/10

The basic idea of the method is known, though I can't stress enough how this applies to almost all eBooks and their methods. What matters here is the execution of the idea, and in the form of this method it's done perfectly and I've never seen the approach explained in this eBook before, nor would I be able to figure it out myself.

Length: 10/10

The eBook contains 66 pages of quality content, you are not getting too much nor too little. It's a good length as it teaches you everything you might want to know and need to know about the method.

Overall Quality: 9.5/10

All-in-all, I'm going to have to give this awesome eBook the solid rating of 9.5/10!

Good luck with sales!

If i try and actually put in the work I could easily pull \$400 a month and cover my car payment

Can I have a vouch copy? I can leave a honest vouch consisting of the product, the method and the seller and each category can have about 5 sentences (a paragraph).

Bubblez - August 4, 2017, 7:33 pm

I would be happy to give a honest review for a copy!

All vouch copies have been given out! Waiting for the feedback
