Thread: [Facebook Group: Admin permission on a group with admin](#)

Aut0psy - August 6, 2017, 7:41 am

Hi,

I know that exists an extension for browser that allow to become admin in a Facebook groups that has no admin, but if is there an admin, how can I obtain admin power? Thanks

OxaByte - August 6, 2017, 7:46 am

if somehow you get the admin power then you cant remove the real admin from the group . u cant remove group creator from the group.
