Thread: [Resub.stream - Account Shop with automatic replacement - reviewer needed](#)

undefined. - August 6, 2017, 5:18 pm

So I have just released this product to the non-free account section. I need some reviewer to show that my product is legit.

It's an account shop with automatic replacement. You will get fresh premium accounts and if they die, you can get a new one with a click of button. You can switch your account to a different account type as well.

PM me if you want to be a reviewer, you will get free 1 month access

Interesting Concept. It's an Hassle for the Customer to bother the seller and vice versa and you completely innovated the game now. Gonna try out this service soon. Very cool site and will for sure get you customer satisfaction!
