Thread: [taking a 2nd hand Iphone 7 128gb](#)

???Berlin??? - August 7, 2017, 7:17 pm

yeh from my local classified site i got a iphone7 128gb for kinda good rate .. and while buying from the user what all details should i check before buying also is the new iphone7 great in features?

he had given me the imei details and when i checked the apple site its verified too.

Any tips before buying?

Just because he gave a IMEI doesn't mean its a legit phone/imei matches that phone. I would do some more research on the place you are buying from and just do basic fake checks over the pictures provided.

Make sure it isnt icloud locked

for that reset the phone when you buy it and activate it on your apple id

make sure it is sim unlocked

Make sure the screen wasnt replaced as replacement leads to disabled touch id

see the condition of item and all that
