Thread: [\[FREE FILES\] Botnet files](#)

StaticCG - August 7, 2017, 8:21 pm

Need some free files, I got this:

<http://filedeath.ml/Archive/1337/Botnet%20Files/>

SuperiorUser - August 7, 2017, 10:43 pm

checked a couple of files and didn't find any backdoors but honestly i would suggest you read over the code before using it.

What's this collection of skid-infested code?

SuperiorUser - August 8, 2017, 10:49 pm

I know some people that would, but I just had to warn users, I mean it should go with everything you should read any source code that you can get before using it.

Nipsu - August 9, 2017, 4:28 am

Is there zekrom v11 there?

StaticCG - August 9, 2017, 3:11 pm

Its just an archive of uploaded files that people have requested.

There not mine.

But I checked all the ones I've uploaded, but you may still review the code yourself (of course)

Anyways, enjoy.

For anyone who wants to download everything at once just use wget on windows with Git bash or any other terminal emulator.
