Thread: [Dawn | Coding Sector Recruitment](#)

Dr. Gonzo - August 8, 2017, 5:21 pm

Coding Sector Recruitment

About The Coding Sector

What we're trying to do is build a functioning coding sector.

This coding sector will work on projects and challenges together in teams

both large and small. Failure to function and remain active will result in removal

Because building a thriving community such as the one I've described is an ongoing process, the recruitment will also be an ongoing process. This is because I am not a perfect judge of character and I expect some of you to fail me.

Requirements (Do not apply unless):

You are willing to participate in weekly challenges

You are willing to participate and contribute in group projects and activities

You are willing to accept that learning is an ongoing process

You are willing to remain active

You are willing to put forth effort

Application Form

Code [color=#FFFFFF][b]Why are you interested in joining?[/b]

Riyu - August 8, 2017, 5:31 pm

Why are you interested in joining?

I'm interested in learning how to code, I have zero experience but I'm willing to learn and contribute as best that I can.

Have you contributed anything Coding wise on Hack Forums or anywhere else?

No, I have not ventured into that section of the forum as far as I know. I'm willing to learn some skills while being in the group and at a later time, contribute to the section as best as I can.

What coding languages are you familiar with and how familiar are you with them?

I'm not familiar with any type of coding language.

What is your experience with coding?

None.

Do you have Discord?

Yes,

Riyu#3134

How many hours per week can you dedicate to Dawn?

I can dedicate around 30 hours per week. I really want to learn.

Have you been a member of Dawn in the past?

No.

M?xim - August 8, 2017, 5:33 pm

What language(s) will the section work with?

wit - August 8, 2017, 5:37 pm

Why are you interested in joining?

I'm a comp sci/ network engineer student in college. it's the reason I joined HF.

Have you contributed anything Coding wise on Hack Forums or anywhere else?

Just some stuff for my university, haven't assembled anything for HF.

What coding languages are you familiar with and how familiar are you with them?

Java - very good

HTML/CSS - can do anything but everyone knows these two

VB - average

Python - pretty noobish but seems easy to grasp

Git - can do the basics

What is your experience with coding?

Understanding but not above average, basically able to do most tasks at hand.

Do you have Discord?

yes, PM me.

How many hours per week can you dedicate to Dawn?

2-3 hours a day so 12-18 hours a week

Have you been a member of Dawn in the past?

I have not

_wind - August 8, 2017, 5:41 pm

Do you have any example projects that you or members in the sector have previously completed?

Horus God - August 8, 2017, 5:45 pm

Why are you interested in joining?

i want learn more of coding coz in the future i wanna build advanced AI

Have you contributed anything Coding wise on Hack Forums or anywhere else?

Nope

What coding languages are you familiar with and how familiar are you with them?

C# - Good

PHP - not bad

Html/CSS - Good

Python - understanding

Perl - Very Good

What is your experience with coding?

Understanding, i can do any things on coding like pro coz read docmention of project or codes, totally understanding

i was coding C# projects when i was 16

Do you have Discord?

yes i have :)

How many hours per week can you dedicate to Dawn?

12 hours per day

Have you been a member of Dawn in the past?

Nope

Closed User - August 8, 2017, 5:49 pm

Why are you interested in joining?

Killing time and making profit

Have you contributed anything Coding wise on Hack Forums or anywhere else?

I used to be active in the .net subforum but its ded rn

What coding languages are you familiar with and how familiar are you with them?

Every major 'desktop' language(everything but asm and webdev)

What is your experience with coding?

I have enough experience to determine the one who wrote this questions is complete out of track at programming

Do you have Discord?

pm me

How many hours per week can you dedicate to Dawn?

10-30h a week

Have you been a member of Dawn in the past?
Probably

Commodity - August 8, 2017, 6:27 pm

Why are you interested in joining?

I'm planning on studying computer science (and maybe maths) at University, with a career in that field - any experience now is extremely valuable, and any extra skills I'll be able to learn would be great. I'd also like to meet people who I might be able to collaborate and work with in the future, as well as help others if needed.

Have you contributed anything Coding wise on Hack Forums or anywhere else?

I'll help occasionally in the C# section, but most of my public projects are on my GitHub [here](#). The most notable one would probably be Skype4Sharp, which is outdated now but was used as a replacement for Skype4COM.

What coding languages are you familiar with and how familiar are you with them?

Ranked from most experience to least;

C# - Pretty good, I think

Python - Decent knowledge, I use it more for prototyping and testing than for actual projects

PHP - Some experience messing around with web applications

JS - Same as PHP, screwing around with web apps and small tests

What is your experience with coding?

Understanding, but I want to learn more low-level and computer science programming (rather than writing libraries to interact with existing applications)

Do you have Discord?

Yes, will provide via PM if needed

How many hours per week can you dedicate to Dawn?

20 hours or so, more or less depending on school work

Have you been a member of Dawn in the past?

No

Night Fury - August 8, 2017, 8:40 pm

Good luck with recruitment, Shark. This is a great step forward for the group.

Ultra Instinct - August 8, 2017, 11:50 pm

Why are you interested in joining?

Recently, I started learning how to code. I'm currently learning HTML/CSS on CodeAcademy. I would like to be around people who are passionate about coding.

Have you contributed anything Coding wise on Hack Forums or anywhere else?

Sadly no.

What coding languages are you familiar with and how familiar are you with them?

None so far. If this counts as anything, I understand the basics of HTML/CSS.

What is your experience with coding?

None/Newbie

Do you have Discord?

Yes.

How many hours per week can you dedicate to Dawn?

About 10-12 hours a week.

Have you been a member of Dawn in the past?

No.

Lukas - August 9, 2017, 5:28 am

(Aug 8, 2017 05:33 PM)Maxim Wrote: [\[CITE\]](#) What language(s) will the section work with?
Also wondering this.

Dr. Gonzo - August 9, 2017, 8:04 am

(Aug 9, 2017 05:28 AM)Lukas Wrote: [\[CITE\]](#) Also wondering this.
Any and all. Challenges will focus around python in the beginning though

Fire - August 9, 2017, 10:49 am

Why are you interested in joining?

I'd love to join the group because I've been coding since I was around 13 years old, I'm now almost 21 and it's still something that I do daily. I'd like to join to contribute but to also learn more from other members.

Have you contributed anything Coding wise on Hack Forums or anywhere else?

No, but I would like to do more of that.

What coding languages are you familiar with and how familiar are you with them?

Depends on who you are asking, I personally think that despite my 5 years of REAL programming, I still suck.

C/C++ - Kinda good

Python - Good

C# - Good

PHP - Very good

Javascript - Very good

Html/CSS (scripting) - Very good

What is your experience with coding?

Advanced

Do you have Discord?

Yes.

How many hours per week can you dedicate to Dawn?

Honestly speaking, it all depends on the quality of the sub-forum. In the first week, I will be active, after that depends on the response and how the community is.

Have you been a member of Dawn in the past?

No.

vaiperboy - August 9, 2017, 2:00 pm

Why are you interested in joining?

Honestly got bored of these our-everyday-forums. Trollers/LQ's everywhere. Want to try something new, something i used to enjoy very much in the past.

Have you contributed anything Coding wise on Hack Forums or anywhere else?

Yes. Made a mass username checker for instagram (multi-threaded like a badass)

Kinda-simple python zip cracker (was for a project tbh)

Reverse engineered PSN's phone API for message spamming.

Much more I forgot honestly.

Helped everyone I could in coding sections.

All of this was done when I was 14 years old :)

This was done on another forum, for links PM me.

What coding languages are you familiar with and how familiar are you with them?

C# - the most (very first language I learned due to old days skid shit [RTM]).

PHP/JS - only when I need a project done. Don't have any troubles with it. and good in HTML/CSS.

If you even consider these a language.

Java - only learned this for arduino, so I'm kinda 50/50 with this.

Python - not that good as it never interested me, until recently.

What is your experience with coding?

E.G. None, Newbie, Understanding, Advanced, Guru.

I would honestly consider myself understanding as I have no issues when coding something, that I know I can code. And if I can't i'll just keep trying.

Also, I should note. I didn't code in the last few months, so I will have some trouble gaining back to what I knew.

Do you have Discord?

Toxic#7464

How many hours per week can you dedicate to Dawn?

The time I dedicate to HF. At least 20 hours (can't really tell how much. Let's just stick with a lot)

Have you been a member of Dawn in the past?

Nope. In matter of fact, this is going to be my very first group (hopefully)

But please note, I'm in vacation and won't be as active as much till I get back (19th of August, 17). Not active in coding, but will be in participating (vacations are boring?)

Cheers

mutybyte - August 9, 2017, 7:56 pm

Why are you interested in joining?

Because i have no experience and i want to make career in Pentesting field.And Programming is the best key to become successful pentester. After joining this group i will learn a lot by participating in challenges as challenge is the best key to learn. I will give full contribute to community when i gain experience..

Have you contributed anything Coding wise on Hack Forums or anywhere else?

Not contributed but i asked for help some time in coding section

What coding languages are you familiar with and how familiar are you with them?

PHP basics

MySQL very very basic

Python Basic + little intermediate so far and in progress

Bash [in progress] made two scripts for own use

HTML/CSS Learned

Javascript basics

What is your experience with coding?

E.G. None, Newbie, Understanding, Advanced, Guru.

Understanding

Do you have Discord?

Yes

multybyte#5377

How many hours per week can you dedicate to Dawn?

Many hours. can't say exactly hours

Have you been a member of Dawn in the past?

No

Dr. Gonzo - August 14, 2017, 4:52 pm

The following members have been accepted into Dawn's coding sector. [Commodity](#)

[Jaeger](#)

[Orka](#)

This recruitment is still ongoing so feel free to continue with the applications.

sm?ked - August 19, 2017, 2:47 pm

Why are you interested in joining?

I have recently acquired a great interest in C and C++ and as of posting this I have just done some beginner exercises and started using both Visual Studio and GSS compilers. I want to learn from those who have knowledge in this field so one day maybe I can make something cool and teach others.

Have you contributed anything Coding wise on Hack Forums or anywhere else?

I haven't as this is one of the first languages I am putting forth effort to actually learn

What coding languages are you familiar with and how familiar are you with them?

I tried VB.NET for a while and hated it. This is the first real one I am trying.

What is your experience with coding?

E.G. None, Newbie, Understanding, Advanced, Guru.

New Newbie

Do you have Discord?

Lads#9441

How many hours per week can you dedicate to Dawn?

Well, school starts back up again soon. I can try to do around 7 hours a week due to classes and sports.

Have you been a member of Dawn in the past?
I have never been a member of Dawn prior to this post.

thePolarBear - August 19, 2017, 6:10 pm

Why are you interested in joining?

To further my knowledge in programming and too make some friends. I want to further my knowledge in coding because I am in my second year of college for cyber security and I know that getting better at coding will help me in college and help me in the long run in my future job(s)

Have you contributed anything Coding wise on Hack Forums or anywhere else?

I've made a Line messenger app bot, the bot was written in Python and a few other random scripts. Like a script that took tweets from dumpmon and put the logins into a database. Worked with yify's api. Also a couple of random scripts. I'm working on a discord bot. I also made a gmail email checker, coded in ruby.

My friend and I coded this together in ruby:

<https://github.com/xXDEF4LTXx/Dev-testing>

What coding languages are you familiar with and how familiar are you with them?

Ruby - I'm decent at Ruby, I know how to do most stuff and understand it. python - Started to learn python last summer for the line bot, but slowly learning my around python/

What is your experience with coding?

E.G. None, Newbie, Understanding, Advanced, Guru.

With Ruby I would say I'm understanding and with python I'm a newbie. I'm always learning new stuff with python and ruby

Do you have Discord?

Yes I do. Not sure if you want my discord id but here it is :MclovinIt

How many hours per week can you dedicate to Dawn?

Probably 10 or 10 +, I'm always on my pc in my free time. (sometimes during boring classes hehe)
I'll probably really active on Fridays since I do not have any classes on that day.

Have you been a member of Dawn in the past?

No I have not

NA Riven - August 19, 2017, 6:19 pm

Why are you interested in joining?

Because I want to learn how to code.

Have you contributed anything Coding wise on Hack Forums or anywhere else?

No I did not.

What coding languages are you familiar with and how familiar are you with them?

Well I did a little bit of C++ but you can call it nothing.

What is your experience with coding?

E.G. None, Newbie, Understanding, Advanced, Guru.

None/Newbie

Do you have Discord?

Yes I do.

How many hours per week can you dedicate to Dawn?

Atleast 21 hours.

Have you been a member of Dawn in the past?

No I never joined Dawn

The Doge of Wall Street - August 19, 2017, 6:23 pm

Why are you interested in joining?

having programming in a month or 2 in school and i'm just intrested in it

Have you contributed anything Coding wise on Hack Forums or anywhere else?

I just help here and there

What coding languages are you familiar with and how familiar are you with them?

C , C# and vb.net (all the basics just tough)

What is your experience with coding?

Understanding

Do you have Discord?

look sig :)

How many hours per week can you dedicate to Dawn?

40+

Have you been a member of Dawn in the past?

Sadly no

?Zero - August 21, 2017, 6:36 am

Why are you interested in joining?

I have a bit of experience on coding, and want to start a website, what's the best way to start other than been around other people who are more experienced in this stuff? Here.

Have you contributed anything Coding wise on Hack Forums or anywhere else?

Nope, not really i am a bit new and haven't put my skills to use, although i have used coding apps to continue learning, but their not as effective, as you want them to be.

What coding languages are you familiar with and how familiar are you with them?

HTML (Basics)

CSS (more than a bit)

Lua (a bit)

What is your experience with coding?

E.G. None, Newbie, Understanding, Advanced, Guru.

Newbie, i know the coding i know but i haven't put it to good use.

Do you have Discord?

Yes, PM for it plz :)

How many hours per week can you dedicate to Dawn?

More than 20 hours or so.

Have you been a member of Dawn in the past?

Nope.

Satoru Gojo - August 21, 2017, 6:45 am

Why are you interested in joining?

I plan to major in Computer Science in college next year, and in order to keep up in a good school I feel I greatly need experience. Joining a group like this that is filled with experts would be the opportunity I need in order to expand upon my knowledge and experience.

Have you contributed anything Coding wise on Hack Forums or anywhere else?

I have not yet contributed anything coding wise to Hack Forums due to my current lack of knowledge and skill, but I hope to change this once I become better.

What coding languages are you familiar with and how familiar are you with them?

Python - Fairly basic

What is your experience with coding?

E.G. None, Newbie, Understanding, Advanced, Guru.

Newbie

Do you have Discord?

Yes, PM me for it.

How many hours per week can you dedicate to Dawn?

With school starting up as well as cross country I'm not actually sure how much time I will be able to dedicate per week. However I will soon find out and I will take the group and learning seriously.

Have you been a member of Dawn in the past?

Never

iHDCool - August 21, 2017, 12:47 pm

Why are you interested in joining?

I want to join this group because I really want to learn more about coding. I understand that there are other websites out there for that but I find it to be a much better solution to learn to code with friends.

Have you contributed anything Coding wise on Hack Forums or anywhere else?

I haven't, but I'm willing to learn how to code and contribute as much as I can.

What coding languages are you familiar with and how familiar are you with them?

I know the basics of Python 2, HTML/CSS basic.

What is your experience with coding?

Newbie

Do you have Discord?

Yes I do. PM me for the username please.

How many hours per week can you dedicate to Dawn?

14 hours a week, thats 2 hours per day wich is enough as a starter. More when the holidays come and I don't have to worry about school.

Have you been a member of Dawn in the past?

No, I haven't.

PS: I understand I'm new to HF forums, I don't have reputation or flashy profile but give me a chance to prove how much I'm worth and you won't be disappointed. Thanks in advance.

Hash G. - August 22, 2017, 3:04 pm

Doing a coding sector is great and all that - but why should I join?

QU35T - August 24, 2017, 10:32 am

Why are you interested in joining?

I'm currently studying on an IT-centered high school. Since I've been working only on school projects and I don't have anything or have no idea what to code at home I would like to participate in your projects/challenges. Also this will be first time of me, joining a group and I think I can bring some ideas and I'd like to also learn from you guys. Hopefully I will make it to your group and see what we can accomplish!

Have you contributed anything Coding wise on Hack Forums or anywhere else?

Sadly, I haven't yet, but hey, there's still time.

What coding languages are you familiar with and how familiar are you with them?

I've been coding in C# for about 2 years. Made some projects and in school I was an internship in a big company called Trimble. I think I know this coding language well.

C# is not the only coding language I know of course. I started with HTML + CSS about 5 years ago. I think this is my strongest side yet as it's simple and easy.

Also I'm familiar with Visual Basic, but mostly coded in Excel.

What is your experience with coding?

As I mentioned above. I was an internship in a Trimble Company.

Do you have Discord?

Yes! I have discord.

How many hours per week can you dedicate to Dawn?

Well, I think that my time to dedicate to Dawn won't be a problem. I am online everyday and can spend a few hours a day in your group.

Have you been a member of Dawn in the past?

Unfortunately no. But I've heard good things about this group in the past.

Molino. - August 27, 2017, 6:48 pm

Why are you interested in joining?

Interested in helping members any way I can, and looking to participate in any available projects to develop my knowledge.

Have you contributed anything Coding wise on Hack Forums or anywhere else?

Yes, some times, on HF and StackOverflow.

What coding languages are you familiar with and how familiar are you with them?

Python - Very Good

C# - Good

C/C++ - Good

Html/PHP/CSS - Reasonable

What is your experience with coding?

E.G. None, Newbie, Understanding, Advanced, Guru.

Understanding. Been coding python for about 2 years, currently getting a degree on computer science (Second year).

Do you have Discord?

Yes, you already have it. If not, will PM

How many hours per week can you dedicate to Dawn?

Almost everyday, atleast a good hour or two.

Have you been a member of Dawn in the past?

No

Zink - August 28, 2017, 7:42 am

Why are you interested in joining?

I am currently a student in college studying for Computer Engineering. I am interested in joining because I feel the connection I have with other individuals would help me in a way of getting better in different sections of learning I have for myself.

Have you contributed anything Coding wise on Hack Forums or anywhere else?

Nothing yet.

What coding languages are you familiar with and how familiar are you with them?

1-10 Structure Rating

HTML/CSS - 8

Javascript - 6

C++ - 4

What is your experience with coding?

E.G. None, Newbie, Understanding, Advanced, Guru.

Understanding. I am able to interpret the languages I am learning, but will have a lot to learn to really understand the structure of being able to handle a challenge by myself.

Do you have Discord?

Yes

How many hours per week can you dedicate to Dawn?

Depending on my schedule, I am able to come on every day at a minimum.

10 hours a week.

Have you been a member of Dawn in the past?

No.

iHDCool - September 3, 2017, 1:30 pm

I don't mean to be patient but ehm, any activity from the leaders on the applications?

Ronnie Coleman - September 8, 2017, 10:44 am

Why are you interested in joining?

I haven't joined a group before, I want to know what it's like and contribute.

Have you contributed anything Coding wise on Hack Forums or anywhere else?

Not yet, I am considering becoming active and joining this group would motivate me.

What coding languages are you familiar with and how familiar are you with them?

Python - I am familiar with the language itself and many built-in libraries. I am familiar with the performance cost of different ways of implementing certain things in Python because I come from C/C++ background.

C++ - I am familiar with the data structures and algorithms in C++ because I use them in competitive programming.

C - I am extremely proficient with strings, memory allocation, integer/bitwise manipulation.

What is your experience with coding?

E.G. None, Newbie, Understanding, Advanced, Guru.

I'm an undergraduate comp sci in my last year. I lead our competitive programming teams. My experience with coding is very limited to algorithms and data structures. I am well versed at number theory and dynamic programming algorithms.

Do you have Discord?

No, i will create one if needed :)

How many hours per week can you dedicate to Dawn?

2-3 hour per week. I have school and work.

Have you been a member of Dawn in the past?

No

Kuri - September 10, 2017, 9:18 am

Why are you interested in joining?

I want to join because I want to become a good programmer and become better at problem solving. This is possible through challenging my self and pushing my limits. As well as me wanting to be a dev I will be starting studying cs next year so this is very important to me that I stay motivated to code everyday.

Have you contributed anything Coding wise on Hack Forums or anywhere else?

Yes, I wrote a simple Python program which asks the user for a input then it saves it into a text file.

What coding languages are you familiar with and how familiar are you with them?

Very little Python and C++.

What is your experience with coding?

E.G. None, Newbie, Understanding, Advanced, Guru.

Newbie, but I aim to improve everyday.

Do you have Discord?
Astral#3341

How many hours per week can you dedicate to Dawn?
30+ hours a week.

Have you been a member of Dawn in the past?
No

Terry A. Davis - September 17, 2017, 4:08 am

Why are you interested in joining?

Why not, I know C#, PHP and minor amounts of C++. I use C# and PHP in my working environment to make some useful tools, plus I am a fucking self regarded legend so why not?

Have you contributed anything Coding wise on Hack Forums or anywhere else?

Nope, because it's only recently that I've considered myself knowledgable, plus the C# forumn is fucking deader than Stalin.

What coding languages are you familiar with and how familiar are you with them?

```
Code var Languages = new List<Languages>();
```

```
//Propigate Languages list here
```

```
var LanguagesIAmComfortableWith = Languages.where(Language => Language.Known == true).ToArray();
```

I can link my Git to an owner of the group to show what I publish there, I won't publically post it as it links to my work.

What is your experience with coding?

Understanding/Advanced, I can do a bit unaided by Google for C++, but can do most stuff unaided by Google or S/O for C#.

Do you have Discord?

Yep, but again, it's more personal than general so I won't be welcome to share it without a damn good reason.

How many hours per week can you dedicate to Dawn?

Well, depends. How many do you want me to dedicate? If you have a project assuming work or personal projects don't interfere I can work on it.

Have you been a member of Dawn in the past?

[No](#)

DeadKube - September 17, 2017, 1:46 pm

Hmm, not a single experienced coder has applied yet. I wonder why. Anyway, if you guys need a code critic and someone who has been in the business for about a decade, hit me up.

As for coding languages: C#, Java, HTML, CSS, JS (Angular, Node.JS), T-SQL, SQL, VB.NET, ASP.NET, PHP ...

Also have experience with: MongoDB, Android development etc etc.
I basically make a living as a programmer so yeah.

Idusk - September 24, 2017, 4:24 pm

Why are you interested in joining?

Looking to expand my knowledge and meet some people that have the same interests as i do and hopefully find some new business partners.

Have you contributed anything Coding wise on Hack Forums or anywhere else?

I have offered some programs i made in vb.net.

What coding languages are you familiar with and how familiar are you with them?

HTML/CSS - Novice

Vb.net - Not the best with it but i have done work with it.

What is your experience with coding?

E.G. None, Newbie, Understanding, Advanced, Guru.

Understanding been coding for a bit.

Do you have Discord?

PM me please.

How many hours per week can you dedicate to Dawn?

I am on my computer every day, So i would be able to dedicate a lot of time.

Have you been a member of Dawn in the past?

I have not.

soueuls - September 26, 2017, 7:52 am

Why are you interested in joining?

Because it's tailored toward coding, which is my specialty and main interest.

Have you contributed anything Coding wise on Hack Forums or anywhere else?

I am helping here and there on HF (but I have been away for the past 2 years and I am just coming back, better than ever though). Outside of this, I am just starting to do a bit of open source for FreeCodeCamp and I build a fully functional ray tracing engine in C (reflection, refraction, blobs, colored spots, Perlin noise, etc) using no external libraries as well as building a fully functional linux shell (advanced command line editing with termcaps, pipe operator, <. >, <<. >> redirections, globbing as well as few other things)

What coding languages are you familiar with and how familiar are you with them?

C, Javascript, and Python. I played a little bit with Haskell to get a sense of functional programming.

What is your experience with coding?

E.G. None, Newbie, Understanding, Advanced, Guru.

Advanced

Do you have Discord?

soueuls#6127

How many hours per week can you dedicate to Dawn?

7-10

Have you been a member of Dawn in the past?

None

The Mogul - September 27, 2017, 6:17 am

Why are you interested in joining?

Improving my coding skills, is something I am always looking for. Being in a group like this, would give me access to a lot of information, including friendly people who can help me with small problems. Would be fantastic.

Have you contributed anything Coding wise on Hack Forums or anywhere else?

I haven't done it here on HackForums yet. I've done a lot of coding mentoring IRL, where I've learnt people how to set up Wordpress sites, and style them with CSS - not that advanced, but not that time consuming either.

What coding languages are you familiar with and how familiar are you with them?

HTML and CSS to perfection

PHP and Python on pretty much expert level

VB.net, Java, Obj-C, Perl on just a basic level. I really wanna improve on these languages.

What is your experience with coding?

I would say that I am either understanding or advanced. I know my way around, but have always focused on web development, so I am still pretty much a newbie when it comes to anything else - besides Python, which I've used and learnt for the purpose of increasing effectivity in office enviroments, through different types of tasks. Etc. had a callcenter running on an IRC bot, so all sales, information and such was announced on the IRC and stored in a SQL database. It was full of memes that the employees didn't understand - it was perfect.

Do you have Discord?

Yes I do.

How many hours per week can you dedicate to Dawn?

Currently I don't have a "real" job, so I spent a lot of time in front of the computer, but being realistic on how much time I wanna dedicated just to your group I would say around 10 hours a week would be fair, give or take a few hours here and there.

Have you been a member of Dawn in the past?

No I haven't

oRequiem - October 4, 2017, 6:30 pm

Why are you interested in joining?

I'm interested in expanding the knowledge of programming and automatically thought of Dawn

Have you contributed anything Coding wise on Hack Forums or anywhere else?

I have years ago. It was pretty useful and well coded, but haven't in a long time. Looking forward to again though

What coding languages are you familiar with and how familiar are you with them?

- Java (Learned this mainly for games I've played that was used by java)

- Javascript (Brand new to it)

- VB.NET (Favorite language and was the first language I've learned which was years and years ago)

What is your experience with coding?

E.G. None, Newbie, Understanding, Advanced, Guru.
Between Understanding and Advanced

Do you have Discord?
Yes: Sleepy#7488

How many hours per week can you dedicate to Dawn?
It honestly depends on when I'm online, so far it has been most of time so I'd say around 20 - 30 hours

Have you been a member of Dawn in the past?
I have not

Aedan_ - October 4, 2017, 8:14 pm

Why are you interested in joining?

I'm interested in joining Dawn because I believe it could be a great experience to learn more about coding, and also meet new people and have fun!

Have you contributed anything Coding wise on Hack Forums or anywhere else?
No.

What coding languages are you familiar with and how familiar are you with them?
N/A

What is your experience with coding?
E.G. None, Newbie, Understanding, Advanced, Guru.
None

Do you have Discord?
Tic-Tac#1431

How many hours per week can you dedicate to Dawn?
3-8 hours a day, so around 30 hours a week.

Have you been a member of Dawn in the past?
No

sw0p - October 5, 2017, 9:09 am

Why are you interested in joining?

I'm interested because i would like to expand and share my knowledge with others. Also would like to participate in projects!

Have you contributed anything Coding wise on Hack Forums or anywhere else?
Well I wrote a small Guide for newcomers dont know if that counts but here is the link

----->>>> [My TuT for newcomers](#)

What coding languages are you familiar with and how familiar are you with them?
Im familiar with Python (still learning though)

What is your experience with coding?

Newbie

Do you have Discord?
for sure! Discord: btyx#0352

How many hours per week can you dedicate to Dawn?
2-5 hours a day ---> ~30 hours

Have you been a member of Dawn in the past?
sadly No.

Mustys - *October 5, 2017, 3:08 pm*

Looks like a great group, good luck running the coding section.

Crystallize. - *October 6, 2017, 12:09 am*

Why are you interested in joining?
To learn more about coding and how thing work

Have you contributed anything Coding wise on Hack Forums or anywhere else?
No

What coding languages are you familiar with and how familiar are you with them?
PAWN,C++

What is your experience with coding?
Newbie

Do you have Discord?
Yes.

How many hours per week can you dedicate to Dawn?
As long as im online I frequently could visit Dawn sector also contribute (6-7 hrs daily or more)

Have you been a member of Dawn in the past?
Nope

Woes - *October 6, 2017, 12:15 am*

Why are you interested in joining?
Seems lit, I'm always bored, so why not?

Have you contributed anything Coding wise on Hack Forums or anywhere else?
I'm usually active within the Python section, also, I have had a lot of programs on the market that have all been created by me.

What coding languages are you familiar with and how familiar are you with them?
Python baaaby, also html css and all that good stuff

What is your experience with coding?
E.G. None, Newbie, Understanding, Advanced, Guru.
MF Guru at python

Understanding of a lot of other languages, (it's easy to pick up more once you know one)

Do you have Discord?

Yes, chris#9705

How many hours per week can you dedicate to Dawn?

I'm literally available 24/7.

Have you been a member of Dawn in the past?

No, I have not.

Conscious - October 6, 2017, 2:14 am

Why are you interested in joining?

I have always loved to share, "Sharing is caring" and that is what I wish to do in Dawn.

Not only do I wish to share I also hope to learn from other experienced coders in Dawn.

Have you contributed anything Coding wise on Hack Forums or anywhere else?

Yes I have, I have contributed with stuff I have coded, most recently an Instagram username checker:

<https://hackforums.net/showthread.php?tid=5728562>

I plan to contribute a lot more in the future.

What coding languages are you familiar with and how familiar are you with them?

AutoIT, I feel I'm pretty familiar with AutoIT, have made several things, mostly on other forums.

PHP, I'm a beginner but I feel I'm a quick learner.

HTML/CSS, might be a bit rusty, haven't used it in quite a while, but its not that hard.

What is your experience with coding?

Understanding, I still feel like a beginner but I am a quick study.

Do you have Discord?

Yes I do.

Conscious#6776

How many hours per week can you dedicate to Dawn?

Quite a few, I'm online more or less everyday and almost every weekend.

Have you been a member of Dawn in the past?

Can't say that I have, but I hope to be!

??e rando? d??c? g?y - October 7, 2017, 7:52 pm

Why are you interested in joining?

I'm always open to learn from new people, Seems like a great group to start

Have you contributed anything Coding wise on Hack Forums or anywhere else?

<https://hackforums.net/showthread.php?tid=5665746>

What coding languages are you familiar with and how familiar are you with them?

php,sql,C,C++,C#,JS, but I'm mainly doing back-end web development, I also do some game development (Even joined a big game jam event)

What is your experience with coding?

E.G. None, Newbie, Understanding, Advanced, Guru.
Advanced

Do you have Discord?
TheRandomDutchGuy#5918

How many hours per week can you dedicate to Dawn?
That all depends on the group activity, If its very active i will be very active.

Have you been a member of Dawn in the past?
No

Onireves - October 7, 2017, 8:03 pm

Why are you interested in joining?
I mostly code alone, don't know many coders and I think I'll learn new things and faster in a team.

Have you contributed anything Coding wise on Hack Forums or anywhere else?
I've done some personal and school projects, you can check my [github](#) here.

What coding languages are you familiar with and how familiar are you with them?
C#, Javascript/Node.js, PHP - Medium
Java, Python - Low

What is your experience with coding?
Advanced.

Do you have Discord?
Onireves#4095

How many hours per week can you dedicate to Dawn?
I have 12 hours/week of "coding classes" were my teacher doesn't teach anything which should make around 15 hours per week.

Have you been a member of Dawn in the past?
Nope
