Two questions here:

1. Do you expect me to go first to you?
2. What is your current stock?

I guess I'll ask him again last time I mentioned HF to him he had no clue what I was talking about.

If you are really trusted on Sythe. I suggest not going first here. Rep does not equal trading reputation. 1000 Rep will scam as easily as 10 rep.

Thank you for the advise- I remember having an account on here when I was like 10 years old (20 now) and for the life of me can't remember the login. I just remember getting scammed by a "reputable" user and have learned since then :D. If anyone cares to see my outside reputation, they can dm me haha.

I'm not familiar entirely with site, I have tons of offsite reputation and most likely would choose the most reputable MM possible. If you'd like to discuss this further, DM me or add my skype:
