Thread: [Botting lvl 1-30?](#)

Hi I'm Arnold - August 10, 2017, 12:04 pm

Hey guys.

I want to smurf, but I'm too lazy to level it up myself, and I'm also too jewish to pay \$35 for a lvl 30 account.

So I was wondering if anyone know of any leveling bots, that I can run throughout the night. I know there might be high risk that it'll get banned pre30 - But I'm willing to give it a shot ?

The bot client + scripts will most likely run you more than a level 30.

Assuming you're on NA <https://kindredshop.net/shop/category/na/> but they also have EUW. Very cheap aswell

I couldn't get it to work but supposedly a combination of Legendary Bot and ELOBuddy can automate levels 1-30. Give it a search your attempts may turn out a better result.

Legendary bot and ELOBuddy works for 1-30.

Like Alice Dee said, get ELOBudy and get AramBuddy + LegendaryBot.

LegendaryBot will run your game in super low resolution and lower all the settings so you can run multiple clients at the same time to mass lvl them while AramBuddy gets you through the later levels really fast.

Make sure you screenshot your ingame settings because LegendaryBot will change them.

Great alternative to botting - I'll probably buy from here, if I can't seem to get a working bot.

Have you tried G2A? You can get level 30 accounts for 20 euros (20K IP).

Legendary bot and ELOBuddy works for 1-30 does this really work?

makos1337 - September 3, 2017, 4:18 am

yeah, the legendary bot with elobuddy is fine, I leveled up like 10 accounts, 3 of them got banned, it's like the russian roulett, these accounts might get banned, because ppl will report u, it depends on your luck, anyway if you're gonna levelup accounts with bot, don't use obvious scripts like evadee, etc
