Thread: [How to sell Bitcoin Or Ethereum](#)

XpiY - August 10, 2017, 8:31 pm

hello, so I got a problem with coinbase and that is I can't sell my Bitcoin or ethereum, because coinbase don't support it. so do any of you know any trusted, good website to sell my Bitcoin or ethereum to, and then transfer it to PayPal or bank. btw it must work with a Canadian bank.

minimalist - August 10, 2017, 8:33 pm

QuadrigaCX works well for this, ID verification isn't required for direct bank transfer and they do \$100-\$20000 per transfer.

Pain - August 10, 2017, 8:37 pm

Try selling it to HF users here(trusted ones), I am interested in buying some if youre selling

I'm Canadian as well and I use QuadrigaCX. It's based in Vancouver and works really well.

etheriumenthusiast - January 15, 2018, 4:05 pm

I would like to buy etherium as well

A_sh_123 - January 16, 2018, 11:01 am

This might be the wrong place to ask but can someone please give me a lesson on buying and selling? I am trying to get involved in the market and more importantly Bitcoin!!!
