Hmm well I personally would've gave a vouch copy to someone who didn't join a month ago but that's just me.

Does this have anything to do with farming reward points and then cashing those out?

He paid for the vouch copy, and so far he is communicating with me in terms of the review and testing.

Not at all, I personally don't like the idea of working for reward points or surveys.

Oh he still bought it.. got ya.. hmm ok

Good

Is there a max earning per day?

Instant payout?

Max earnings per day? There is no limit, you can earn up to as much as you want per day, I don't want to say that you will make \$500 per day, but it is possible. With my current method and its state, if I do find a way to increase its earning potential I'll always push an update.

Its instant in a way, you'll get your money in 2-3 days but if you wait for the payment cycle its instant.

With this it would seem so far this this is your pre review;

Poor documentation of any

Instructions are unclear and/or op is not communicative

I have helped him through the process, and he has given me feedback (instruction improvements) in my end.

Finally my HONEST no BS vouch copy review for this ebook after actually using it!  
Version of Ebook I'm reviewing: 1.3

Originality: [8/10]

Ive never seen this exact method before and there is a very large chance you haven't seen it either (although it may remind you of a method you might've seen but it has a very big twist which is where you earn the money!)

Content: [9/10]

This Ebook is very informative and explains everything pretty well, there are many pictures to help you with the steps involved and it tell you pretty much everything you would like to know about this method but if you have any questions whatsoever the seller was very kind and cooperative and helped me through the whole process! Furthermore if the seller was to update the ebook in anyway he would send the new version to you, as he did to me.

Method: [9/10]

Now this is the part you actually care about, does the method actually work? Yes, Yes it does! Ok lets talk about the method, the method does require you to wait anywhere from 24-48 hours before you can start earning but after that wait time, it should be super smooth and easy and autopilot\* (you do need to keep track of it but not much work at all, 10 mins a day max). Seller claims \$300 a month but i honestly think you could get more than that if you put some more effort into it, however the amount of money you make depends on you. At the start don't expect to earn more than a few dollars a day, however as time goes on you will steadily earn more money. The only downside of this method is you need to be slightly creative, not the hardest thing in the world and it only took me a few minutes to think of it\* (the creative part) however if you have any problems I'm sure seller

would be happy to help you

Difficulty: Easy

The actual method itself is very easy and can be done by pretty much anyone, it doesn't require a ton of work after you've set it up and as i said before its semi autopilot

Price: [8/10]

After doing this method and wrapping my head around how it all works i would say that the seller is selling it at a reasonable price compared to how much you can actually make if you put the effort in, and i can tell you this now its not like the other "make \$1000 a day" money making ebooks on hack forums as i think with the right setup, a bit of work and having luck on your side you can make A TON of money from this.

Overview: [8.5/10]

Very good method that seller is smart enough to realise could be easily saturated if say more than a handful of people where doing this, so props to the seller for intelligently only selling a few copies. I will continue using this method for the foreseeable future, so watch out for my thread in the bragging rights sections :D

All in all quality method that will surely earn you good money and a very kind seller who is very supportive :)

Wouldn't hesitate to buy

?

**ProtectNull™** - August 18, 2017, 3:54 pm

Thanks for that review SirShadow.

**ProtectNull™** - August 29, 2017, 1:59 pm

Still selling this! Grab your copy!

Or more yes.

**SirShadow** - September 3, 2017, 5:04 am

Honest Update:

just want to add it takes some time to get the ball rolling but i see how this method can earn \$20 per day just not at the very start

**ProtectNull™** - *October 13, 2017, 4:02 am*

Lowered the price down! Grab your copy

**Xi Jinping** - *October 13, 2017, 10:27 am*

Hey, if it would be possible I would like a vouch, let me now OP!

**CasKade** - *October 13, 2017, 9:58 pm*

Vouch copy? most likely no but worth a try :)

**ProtectNull™** - *October 28, 2017, 4:26 pm*

Price decreased to \$50, PM me if interested.

**Aedan\_** - *October 28, 2017, 7:35 pm*

Just confused as to how we would make profits with this? If it's \$50 to purchase and \$10 investment, and as you stated \$300+/month, you're making around 80 cents a day and it will take you more than 2 months to earn profit from this?

**ProtectNull™** - *February 5, 2018, 1:03 am*

Only \$25! Grab it while its cheap!

**ProtectNull™** - *February 11, 2018, 5:48 pm*

METHOD HAS BEEN REPLACED.
