How I make up to \$500 per month on eBay

Welcome to my first eBook I will be explaining how I make up to \$500 per month on eBay with little work I have been doing this off and on for a few years and have always made a good amount of profit.

This does NOT involve:

- Scamming (My method is 100% white-hat and legal)
- Drop shipping
- Selling items for the wrong price
- Hard work I only work one day out of the week

How much can you make from doing this method?

It depends on how much time you spend this method is extremely easy and only requires stuff you probably do on the internet daily I make around \$500-\$700 on a decent month.

Will this method make you rich?

The answer is no but if you are looking to make an honest living then this is for you.

What does this method require?

- A eBay account
- PayPal account that can accept payments
- Small amount of starter funds (You could start doing this with \$20)

Can this method be saturated?

No this will never get saturated it will still be working in the next 20 years.

Some of my recent profits:

Review:

The ebook is a short read and pretty straight forward. You will be able to finish it in 5 minutes or less. This method might seem obvious for some experienced eBay sellers nevertheless for people who have no idea on how to get started making good money on eBay then i recommend it. This method also works best if you live in a city and not in a rural area. If you implement this method you are GUARANTEED to make money. Overall i would give it a 3.8/5.

So I live in Bangkok, a big city, someone mentioned that it needs to be a big city.
