Alright so I just recently started E-Whoring, actually before 3weeks (Never tried before - wasnt even interested at all) So what I did at first, i was exploiting free sections and got few pics packs and vlc's after that i went to some random chatting rooms and the first day of my ewhoring i earned actually \$10

After that there been few days I couldnt manage to pass through various verification that people requested so I kinda give up and went back to forum but with this Pack I have all that I need seriously thanks man

The pack that came included in this is good and I liked the tutorial, but your script is messed up. It gives out a error message. Line 21. Might want to check that out...

I bought a premuim guide for e-whoring in hf. but i must say. THIS RIGHT HERE IS GOLD! you have everything included!

i just used the picture and went on doing my own method, witch payed really good! pack is still unsaturated (some pictures are detected but overall is good) thank you felony for this and if you send me your paypal ill gladly share with you some of my earning. without this beautiful pack i probably wouldnt made as much so BIG VOUCH for ma man!
