Thread: [Latest kik version](#)

**dinko** - August 12, 2017, 3:55 am

Hi, want to ask, can i use fake camera with the latest version of kik?? im using bluestacks

hope you can help me :D

**kookur** - August 12, 2017, 3:57 am

No you cannot you have to use versions released in early 2015. Good luck :)

**Debugger** - August 12, 2017, 3:59 am

or u can use k+ with builtin fake camera , but not with latest version of kik

**dinko** - August 12, 2017, 4:16 am

ok thanks.

Is there a way to send videos on kik wiht an older version???

with k+ u can send videos too :)

[Here](#)

is the link

jake, thnaks for this man.

Im having a little issue> Im using Nox and k+ now, when i click the + on a conversation to send a video, the video isnt there, just pictures. Im thinking that im saving videos on a different folder. Know on wich folder i should save videos to send them on k+?

no problem at all bro u simply can browse video folder while sending it same way how you select pic to send

**Creamypie** - August 12, 2017, 6:12 am

Nope. in the past i think you can use fake camera. but now. it doesnt work . just use modded kik like kplus or lynx :)
