Thread: [RSPS reflection client or hack client.](#)

**Mazrim** - August 13, 2017, 9:07 am

Looking for the old reflection client everyone used to use back in 2014. Not sure if it'll still work or if there's a new version. Looked around on google and can only find sketchy shit. Hmu if you have any info

**SIM-2501407** - August 13, 2017, 2:21 pm

Don't use someone else's old reflection client, too risky and it will not work.

PlaySkool is the owner of RSPUnit, the RSPS bug abusing forum, and he created a few tools to help alter a client.

Or do it the good ol' classic way and create your own. Not that hard to do, but it is a bit time consuming.

What server are you even trying to reflect?

I could do it, but I do not really have the motivation.

**Mazrim** - August 15, 2017, 8:52 pm

Was looking at mucking around with the dreamscape server. I tried to download PlaySkool's vampire files but malewarebytes didn't seem to like it much, although it doesn't seem like a malicious file and he has decent rep.

On another note, you wouldn't happen to have a forum or discord where people talk about reflection clients and whatnot, would you ?

would be nice to see what other people are achieving with them.

would be nice to see what other people are achieving with them. PlaySkool would never create malicious content that his friends for 5+ years and the RSPS community would download. He is not that type of guy.

Sent you a PM with RSPUnit's discord link. ?

If you signup for RSPUnit, there is a section for a new bug abusers. I moved a thread created by Righteous that goes in-depth into how to create a reflection.

<https://i.imgur.com/2likbZH.png>

His tutorial taught me how to create reflections, so I think you'll be able to learn from it as well.

If you follow the guide and have any specific questions, ask away. Very busy with life and RuneCrest, but I'll try to help as much as I can. ?

**Sharwefa** - August 16, 2017, 12:37 pm

Thanks! Im on the site rn.
