Thread: [Eclipse - Recruitment \[Official Group\]](#)

Views - August 13, 2017, 2:00 pm

Eclipse is Recruitment Only

Recruitment Thread

Eclipse is a group of members that work together to share knowledge within our sub-forum to learn from and use to help contribute to the community of Hack Forums in any and every way possible.

Requirements:

We are now allowing members to be accepted into our group. Our specific requirements vary based on the member but here are our general guidelines:

Around 60+ posts per month of your account's age

No LQP or Harassment Warnings

No legitimate open or unresolved scam reports

No trolling or flaming other members

Acceptable grammar needed.

Need to be able to be online everyday.

2FA Verification must be enabled.

Must be willing to dedicate majority of your time on Hack Forums to Eclipse.

We will also examine your threads, posts, rep, and other members' general opinion of you before we decide whether to invite you or not.

Note: We require our members to be very active and participate in all group activities. If you're not constantly online on Hack Forums than Eclipse isn't the group for you.

In our last recruitment we didn't accept anyone due to the lack of effort in the majority of the applications. We don't have a minimal character requirement but we do encourage you to put your best efforts into your application. If you don't take your application seriously then neither will we.

Note: If you applied and weren't accepted feel free to put some more effort into your application as this will be our last recruitment of 2017.

ama - August 13, 2017, 2:01 pm

Good luck to all applicants, reserved

illuminati? - August 13, 2017, 2:07 pm

Good luck to all that apply.

Look at our fancy userbar.

I've been told to edit this lel, because some of you might not pick up on the fact it's a joke

[The Corporation](#)
[Polymath](#)
[Legion](#)
[The Marketers](#)
[Infamous](#)

Groups I've been in and led:[The Empire](#)

[143](#)

[Phoenix](#)

Why do you want to join Eclipse:

I want to join Eclipse out of pure curiosity. I have been sold on the idea of it being like 143, Phoenix and Empire in similar ways. Though, of course, different as they all were different groups. I have been looking for a group similar to these, and I also would be interested in networking with trust worthy people. Another reason is its size. Smaller groups are more interesting as people get to know each other better. I couldn't care less about the exclusivity that can be assumed in smaller groups, but I do care about trust.

What would you do for the Eclipse award:Participate as an active role in your group. Whether it be just a member or more. Doesn't matter. I want the award, however, it's not a prime desire. I would work for it though.

Time Zone: Eastern Standard Time Skills: Cryptocurrency Investing

Writing

Learning whatever I can Previous Groups You've been in: The groups I am currently in are the only groups that I have ever been in. Why do you want to join Eclipse: Eclipse seems like a very high quality group to be a part of. I enjoy learning whatever I can from HackForums. I have learned so much about Cryptocurrency and other sectors that are featured here on HackForums. Eclipse seems like a very exclusive, selective, and incredible group to be a part of. I want to join to help the group grow as well as helping myself grow.

Why should we invite you to the group: I consider myself very high quality. I recently became active on HackForums about 2 months ago after not touching my account for 3 years. This was due to a forum which I was very active on losing activity and slowly dying. HackForums was my next choice and in all honesty, I should've been hear the past 2 years rather than committing it to another forum. I believe I would have learned so much more.

In this short period of time, I've learned more than in the past 2 years being a Staff member on that forum with over 2 million members. I've managed to make more money than I have ever held at one point, and I have learned critical life information regarding investing, as well as morals in general. My only goal is to help the group grow and to learn and absorb as much knowledge as I can in this group.

Why should we invite you to the group:I'm laid back and always up for a conversation, playing

some games or focusing on a project/business proposition.

Don Vito Corleone - August 14, 2017, 3:43 pm

Name:illfamed Profile UID/Link:<https://hackforums.net/member.php?action=profile&uid=3485953>
Time Zone:GMT+2 (also knows as CET) Skills:Kyokushin Karate (full contact karate) and general martial art/workout skills. I've been doing karate for 6 years and love the sport, especially the discipline involved. I've participated in tournaments and our group ended up in the top 3 most of the times. I've also done kata tournaments where you shadow fight and focus on technique and timing rather than power and speed, this is still a challenge for me so don't have many achievements here. I also work out three to four times a week. UFC is amazing entertainment for me, also like to bet on it sometimes.

Photoshop logo's/threads/website parts, basically I do the marketing gfx for myself and learn in my free time. I got no drawings or good Adobe Illustrator skills.

Business knowledge, I'm currently studying at a university and am doing side projects to earn money. Side projects involve online money making mostly and also trading in altcoins, in my free time I like to read about them and watch the market. Previous Groups You've been in:L33T (if it counts?) Why do you want to join Eclipse:The idea of sharing knowledge, I'm not sure what subsections there are but I explained above what my focus is in terms of spending my free time and learning.

From what I've seen of the members it looks like a nice community to participate in, I've started to be active on HF and spend time daily on it, I started posting more in the last couple of weeks. I also like to learn more in above-mentioned areas so I'm pretty sure I'll be able to be active in the group. Either way, this will be my first official group to join and I like the HF community in general so I hope I'm here to stay.

Why should we invite you to the group:Being active and sharing and gaining knowledge with the community is what I'm looking for, I also got no problem with sharing in terms of making another member a free logo/banner or anything. Of course, I got enough free time to spend on other things except for the areas mentioned above, for example, entertainment/social.

I like to smoke some of that sticky icky and also got a big love for music. I like good songs in general but in particular, I like old school hip-hop/rap and the good new rappers (Kendrick, J Cole, Joey Badass, Woodie Smalls, Flatbush Zombies even. Eminem and 50-Cent are my go to rappers for when I'm working out for sure though. Gaming is also how I like to spend a small amount of my free time, it's usually at the end of the evening when friends are online and we can just have a little fun.

Thanks for reading my application, have a good day and good luck to everybody else.

Why should we invite you to the group:You should invite me to the group because I will contribute to what anyone can't achieve. I can do giveaways, make guides,

E-whoring, Crypto Discussion and lots more. I'm open minded and willing to do anything to what the leader wants including group activites and other stuff.

I don't cause any problems to where I post "leaked" and "leeches" stuff and I'm an HQ user and I'm active alot. I will dedicate my time to this group.

Harmony (currently in that group)

Influence (currently in that group) Why do you want to join Eclipse: Being brutally honest here, Eclipse is the most appealing and fit group I see myself in. I would love to contribute along with experiencing new ways and forms of educating myself while helping others regarding this type of area.

My reason for applying to Eclipse is simple: I want to stand out as one of the high quality, skilled members of HackForums. While it may sound selfish and vain, there is a reason for this: in my opinion, the hf community has been going downhill in terms of quality lately, and I believe that is due to low quality and slightly-less-than-intelligent members becoming more prominent figures in the community. They are everywhere - from the general lounge to the private group lounges - and as a result their influence has been affecting new members and telling them that being LQ and spammy is the way to get famous on leak. By being in a group that emphasises quality it is much easier to be a good role model to new members, and subsequently fix the warped view that stupidity is good.

Why should we invite you to the group: Because I'm eager to expand my knowledge with a high-quality group that shares the same goals and interests. I'm not applying for the group just to improve myself and to expand my own knowledge but I'm also hoping to do that to others. My plan is to share my knowledge within the group in the form of tutorials and advices. I'm also more than happy to participate in any giveaway that Eclipse might hold in the future (or create one myself). I like to think that my behaviour reflects what the group represents: mature and friendly but most of all, high-quality & friendly.

I deserve to be in Eclipse because, assuming it follows Views's values and expectations, I can say I meet the group's expectations: I am skilled in several aspects; I contribute to the community; and if you ignore lounges, I'm kind of/fairly/somewhat high quality.

Within the community, I contribute far more than the average person. I have held a huge number of giveaways, and will continue to do so for as long as I have things to give away. I have helped quite a few members, both with money or just with a few kind words when they needed it the most. I keep

the community clean through reporting spam and rule-breaking posts but only when I see that member has read & understood the rules and yet he keeps breaking the rules and/or spamming aka mini-modding. I help out in the community when I can, offering sensible answers to sensible questions posted around the forum.

Why do you want to join Eclipse:Honestly, I do not know much of what Eclipse does within the group and I would love to see where I can help or maybe enhance it. I love this community and I want to make it better, I feel View's has already done a great job at that. I love how Eclipse hasn't really said we do x and y, you leave a lot of mystery and I love mystery.

Why should we invite you to the group: I have experience and talent in a lot of different area's I feel most of the members would be able to benefit from. I am not saying I am the best at what I can do but I give it my 100% every time. Developing and Marketing are two strong passions of mine and I know both of these can benefit the group in many ways. Besides that I am always trying to put out High Quality content in either a form of a giveaway or a thread, like I have prior, I would love to put some out in the name of Eclipse if possible.

One I am working on currently is ways to increase your chances of landing your next job. I have a lot of experience when it comes to getting that call back or getting that interview.

Realizm - August 17, 2017, 3:31 pm

Some good applications so far, keep them coming.

(Aug 18, 2017 02:35 PM)Hash G. Wrote: [\[CITE\]](#) I don't think I'd meet the expectations of activity so not posting an application - just a question: why are you asking about the previous groups?

A couple of reasons really...

1. We can see the types of groups you've been in to better determine your success in Eclipse.
2. We can see if you've been in groups that contribute more, lounge more, etc as to see how you might participate in Eclipse.
3. We can see your current/past experiences with groups and even ask other members who were leaders/owners/members of these groups to vouch for you.

PS: Hi Hash :)

@Views

Do we have to apply through User CP to get accepted on the application ?

Views - August 27, 2017, 11:43 am

(Aug 26, 2017 10:45 PM)eXceptional Wrote: [\[CITE\]](#) @Views

Do we have to apply through User CP to get accepted on the application ?

Personally I don't really go through the UserCP requests anymore, so applying via UserCP won't increase or decrease your chances as I'm the only person with access and I don't check them.

virus - August 27, 2017, 3:12 pm

Cant wait for the results, have been waiting for a while now :)

Wirt - August 30, 2017, 12:55 pm

I'm not very good with applications, but you know me. However, I also don't believe that applications should mean a lot either. It should be about the person and how they convey themselves. It's sort of like smart people not doing well on standardized tests. I'm not the best when it comes to comprising things because it's sometimes hard to put my ideas into words on an already preset template.

And it all goes back to the fact that you know me, and we've played Black Ops 3 together and zombies for a long time with TJ and Ty and the crew. I feel like I would be a good asset to the group due to the fact that I have a lot of time on HF and get along with a lot of people and would be able to contribute 100% to the group and their activities, along with contributing in a positive way to HF in Eclipses name.

And few others that I can't remember right now.

Why do you want to join Eclipse:Seems like a cool group. Also I have experience and connections in the private sector that I doubt anyone else here has so something unique.

Why should we invite you to the group:I do real business. Something that is rare here.

'Ryan - September 17, 2017, 2:08 pm

Name:'Ryan Profile UID/Link:[1400449](#) Time Zone:Eastern Time Skills:PowerPoint: I know this seems like a weird skill but I excel at designing PowerPoints. I used to have a PP designing service on a graphics website, but now I just do freelance work time to time when I am looking for something to do.

Social Media Management: I used to be the COO of a social media management company specializing in small businesses. I am proficient in growing audiences and helping small businesses maintain their brand image while they transition to the online world.

Entrepreneurship: I am very familiar with many of the skills required to be an entrepreneur. I have written hundreds of pages of business plans, started two companies, met with countless investors and business professionals, and am also currently majoring in Entrepreneurship. Previous Groups You've been in:Socialites (Currently)

Harmony (Currently)

Why do you want to join Eclipse:I've been around on HF for over five years now and have seen plenty of groups come and go. During that time I never really had any interest in joining a group

because it seemed to me that by the time people got comfortable in a group the owner would turn around and sell it the next day. I can tell that Eclipse is different. Just from seeing Views around the forum I know he wants to stick around for years to come and continue to help out the community.

I would also like to join Eclipse because I know it has some incredible members who I would love to get to know more and hopefully collaborate with in the future. For me, the main point of groups is getting to know the other members and accomplishing great things with each other. Eclipse holds a level of respect much higher than many groups have held before. While many other groups have members who are known for being childish and hostile, Eclipse members are known for being helpful individuals with a passion for Hack Forum and I would love to be a part of that.

Why should we invite you to the group:I believe I would be an excellent addition to Eclipse for several reasons. I am a decently old member who has been around long enough to see plenty of groups on this forum. I have seen what they have done that has been helpful and I have learned from also viewing their mistakes.

I believe people who have a passion for something and follow it with all their heart are the best people to surround yourself with. I have a die-hard passion for entrepreneurship, and I would love to share it with the rest of Eclipse.

I am a helpful member on HF who will do a great job representing Eclipse and all it stands for.

Thank you for reading my application, and I hope you give me the opportunity to be the next addition to your group.

Regards,
Ryan.
