Thread: [Auto Engagement Group 20k-100k!](#)

**Aficionado** - August 13, 2017, 5:13 pm

So after seeing all these old engagement group posts with no real outcome, I have decided to create my own.

You need a program to auto like the list of accounts we give you, that way you'll never miss a post to like.

We will be using the "Like" tool in order to engage with each other's accounts.

Minimum requirements are

Group 1: 15k

Group 2: 50k

Group 3: 100k

I got a couple 100ks, 50ks and a ton of 10-20ks.

I am basically online for 16 hours a day as I work from home. I'm looking to get big results, won't be sleeping on this project. Post below and PM me your @ if you would like to join.

Group has 60+ people now. Couple of my posts have hit explore page on my small accounts.

Hit me up if you want to join.
