Thread: [Logo for a t shirt company.](#)

NXXX - August 14, 2017, 12:51 pm

I am planning to start a small time t shirt company and need a main logo. If done right I will purchase services for other GFX work.

The t-shirt company name: 2am clothing
t shirt style: Urban & Streetwear clothing.

I am looking for a logo which I can represent this brand with. Could someone whip up something for me please?

I just whipped this up for fun, I think it'd look dope on a pocket version tee. (I run a clothing line myself)
