Hello HF members,

This is my first giveaway!

In this e-book there are two easy ways on how to get .edu emails for free.

This ebook was going to be sold but I'm giving it as giveaway only for HackForums members!

Download it here: <https://goo.gl/K3cqnT>

Have fun! ?

P.S. If you can't open the file just add .pdf as extension to the file.
