Thread: [Going to get my Results for A-Level \(Going to post\)](#)

Wish me luck, most important results of my educational hostory and I know i'm going to flop. All my family is counting on me and I gotta let they ass down. Any tips for how I can do some damage control (BTW I know for a fact 99% I flopped)

I'll have the grades within an hour and be posting them if anyone (I doubt it) is interested.

edit: Lmfao got straight A's
