(Aug 20, 2017 08:00 PM)illuminati? Wrote: [\[CITE\]](#) illuminati's Review

Overall:

Overall, I would rate this 8/10.

The main reasoning for the 8/10 and not 10/10 would be some grammatical errors, where it wasn't 100% clear. I mean, if you think about the few areas that had them, you can eventually figure out what he meant.

I had contacted meow about writing a non-biased review about his ebook, and he agreed and gave me the ebook free of charge.

Okay, Let's get into this...

Personally I think the price is a bit low, which is good for everyone purchasing this. Personally I'd charge an Extra \$10 at least. The ebook itself is written quite well, excluding a few errors that I noticed. I mean most of the errors are nothing major, but there is one part that will require you to think and try to figure out what he was saying. There is 50 pages technically, but the 50th page is blank, so it's only 49 pages. A little bit of the information in this ebook should be common knowledge, but the majority of it isn't something I've seen in other "DoX'ing" eBooks. There is quite a few "methods" in this ebook that extremely private and aren't well known. Speaking honestly, there is quite a bit in here, that I didn't even know, which was surprising (I was expecting this to be like the other Dox'ing eBooks where it's all common knowledge). The entire ebook itself is incredibly helpful, the information in this ebook should be everything you need to know, don't get me wrong there is always room for expanding, but this eBook starts with basic knowledge and eventually works its way up into the complication stuff. So you can basically jump into this ebook with zero knowledge and come out knowing a shit ton more than what you knew before, if you put in a lot of effort and with the help of this ebook you could even possibly open your own Service here on Hack forums, or other

forums. I would recommend buying this eBook 100%, I mean you can't go wrong with the price of this ebook.

I was planning on putting more into this review but my laptop crashed and I forgot to save it, so this is it.

(Sep 5, 2017 09:07 PM)Anti Democratic Wrote: [\[CITE\]](#) Vouch for Meow and everyone who helped this e-book become together.

I've been doxing for almost a year now, and thought this would be another recycling methods e-book, but this is truly a great doxing e-book. Don't get me wrong, some methods on here are known. Not only does it provide methods, but it thoroughly describes (goes in great detail.) Also, I was never too much knowledgeable in the Detracing piece to Web Forensics, but I feel this e-book has taught me enough to help others and most importantly secure myself.

(Sep 11, 2017 09:58 AM)TryingToHelp Wrote: [\[CITE\]](#) After a lot of thinking and PMing Meow for questions, i decided to purchase this e-book so here is my review.

E-book is amazing and very very very helpful. I thought this is going to be another one of those copy pasted public e-books but I was wrong.

This e-book includes a lot of both public and private methods that are suitable for both beginner and expert doxers, ranging from doxing with e-mail (most basic doxing method) to removing your information from the internet.

Illuminati said that some parts of the e-book are poorly written but I had no issues understanding anything in the e-book.

I will play around with the e-book and then I'm going to purchase mentoring package, Meow seems like a very knowledgeable user when it comes to doxing/detracing and I would love to learn more from him.

For any users that want to purchase this, don't hesitate to do so, this will well worth your money (imo).

(Aug 18, 2017 11:35 PM)Ozyaz Wrote: [\[CITE\]](#) I purchased this a few hours ago and I felt obligated to leave a review.

I knew Meow for 2-3 weeks now, I was his support agent but that doesn't change anything

Meow offered 20% off Advanced and Mentoring package, I decided to purchase "Mentoring" package because I wanted to further my knowledge in detracing and I felt like Meow could help me a lot with that.

Upon purchasing I added Meow on skype to discuss mentoring time and all that stuff.

Here is the ebook review; this is probably one of the best (if not the best) detracing/doxing ebook I've ever read. It indeed includes 30~ (10 of them are super private) methods and they are written across 50~ pages. Ebook includes super useful screenshots that will help you if you don't understand the main tutorial.

After testing out everything in this ebook I'm safe to say I'm very happy with my purchase. I couldn't find any flaws to it and even tho I was sceptical at first, now I don't regret purchasing this. Thanks Meow, we will discuss mentoring time over skype. ?

Ozyaz - August 18, 2017, 11:35 pm

I purchased this a few hours ago and I felt obligated to leave a review.

I knew Meow for 2-3 weeks now, I was his support agent but that doesn't change anything

Meow offered 20% off Advanced and Mentoring package, I decided to purchase "Mentoring" package because I wanted to further my knowledge in detracing and I felt like Meow could help me a lot with that.

Upon purchasing I added Meow on skype to discuss mentoring time and all that stuff.

Here is the ebook review; this is probably one of the best (if not the best) detracing/doxing ebook I've ever read. It indeed includes 30~ (10 of them are super private) methods and they are written across 50~ pages. Ebook includes super useful screenshots that will help you if you don't understand the main tutorial.

After testing out everything in this ebook I'm safe to say I'm very happy with my purchase. I couldn't find any flaws to it and even tho I was sceptical at first, now I don't regret purchasing this. Thanks Meow, we will discuss mentoring time over skype. ?

illuminati? - August 20, 2017, 8:00 pm

illuminati's Review

Overall:

Overall, I would rate this 8/10.

The main reasoning for the 8/10 and not 10/10 would be some grammatical errors, where it wasn't 100% clear. I mean, if you think about the few areas that had them, you can eventually figure out what he meant.

I had contacted meow about writing a non-biased review about his ebook, and he agreed and gave me the ebook free of charge.

Okay, Let's get into this...

Personally I think the price is a bit low, which is good for everyone purchasing this. Personally I'd charge an Extra \$10 at least. The ebook itself is written quite well, excluding a few errors that I noticed. I mean most of the errors are nothing major, but there is one part that will require you to think and try to figure out what he was saying. There is 50 pages technically, but the 50th page is blank, so it's only 49 pages. A little bit of the information in this ebook should be common knowledge, but the majority of it isn't something I've seen in other "DoX'ing" eBooks. There is quite a few "methods" in this ebook that extremely private and aren't well known. Speaking honestly, there is quite a bit in here, that I didn't even know, which was surprising (I was expecting this to be like the other Dox'ing eBooks where it's all common knowledge). The entire ebook itself is incredibly helpful, the information in this ebook should be everything you need to know, don't get me wrong there is always room for expanding, but this eBook starts with basic knowledge and eventually works its way up into the complication stuff. So you can basically jump into this ebook with zero knowledge and come out knowing a shit ton more than what you knew before, if you put in a lot of effort and with the help of this ebook you could even possibly open your own Service here on Hack forums, or other forums. I would recommend buying this eBook 100%, I mean you can't go wrong with the price of this ebook.

I was planning on putting more into this review but my laptop crashed and I forgot to save it, so this is it.

illuminati's Review

Overall:

Overall, I would rate this 8/10.

The main reasoning for the 8/10 and not 10/10 would be some grammatical errors, where it wasn't 100% clear. I mean, if you think about the few areas that had them, you can eventually figure out what he meant.

I had contacted meow about writing a non-biased review about his ebook, and he agreed and gave me the ebook free of charge.

Okay, Let's get into this...

Personally I think the price is a bit low, which is good for everyone purchasing this. Personally I'd charge an Extra \$10 at least. The ebook itself is written quite well, excluding a few errors that I noticed. I mean most of the errors are nothing major, but there is one part that will require you to think and try to figure out what he was saying. There is 50 pages technically, but the 50th page is

blank, so it's only 49 pages. A little bit of the information in this ebook should be common knowledge, but the majority of it isn't something I've seen in other "DoX'ing" eBooks. There is quite a few "methods" in this ebook that extremely private and aren't well known. Speaking honestly, there is quite a bit in here, that I didn't even know, which was surprising (I was expecting this to be like the other Dox'ing eBooks where it's all common knowledge). The entire ebook itself is incredibly helpful, the information in this ebook should be everything you need to know, don't get me wrong there is always room for expanding, but this eBook starts with basic knowledge and eventually works its way up into the complication stuff. So you can basically jump into this ebook with zero knowledge and come out knowing a shit ton more than what you knew before, if you put in a lot of effort and with the help of this ebook you could even possibly open your own Service here on Hack forums, or other forums. I would recommend buying this eBook 100%, I mean you can't go wrong with the price of this ebook.

I was planning on putting more into this review but my laptop crashed and I forgot to save it, so this is it.

I am very tempted to buy this after your review Illuminati. Uhh

Anti Democratic - September 5, 2017, 9:07 pm

Vouch for Meow and everyone who helped this e-book become together.

I've been doxing for almost a year now, and thought this would be another recycling methods e-book, but this is truly a great doxing e-book. Don't get me wrong, some methods on here are known. Not only does it provide methods, but it thoroughly describes (goes in great detail.) Also, I was never too much knowledgeable in the Detracing piece to Web Forensics, but I feel this e-book has taught me enough to help others and most importantly secure myself.

After a lot of thinking and PMing Meow for questions, i decided to purchase this e-book so here is my review.

E-book is amazing and very very very helpful. I thought this is going to be another one of those copy pasted public e-books but I was wrong.

This e-book includes a lot of both public and private methods that are suitable for both beginner and expert doxers, ranging from doxing with e-mail (most basic doxing method) to removing your information from the internet.

Illuminati said that some parts of the e-book are poorly written but I had no issues understanding anything in the e-book.

I will play around with the e-book and then I'm going to purchase mentoring package, Meow seems like a very knowledgeable user when it comes to doxing/detracing and I would love to learn more from him.

For any users that want to purchase this, don't hesitate to do so, this will well worth your money (imo).

Meow - September 22, 2017, 4:51 pm

In regards to [this](#) thread, made by [Linux™](#).

SSN part will be removed from the ebook & thread design as soon as Rivalry is online. Thanks.

xantitaniumzx - September 24, 2017, 3:27 am

After reading thru this ebook for a few days I felt obligated to leave s review. Ebook is very good, its not another copy/paste from other ebooks that are already leaked on the internet.

It includes A LOT of both private and public methods (with some tweaks). I had issues with my purchase but Meow provided nothing but A+ support, big s/ob to him for that. Dont hesitate to purchase this if you are thinking about it.

Meow - September 24, 2017, 7:57 am

This is still up for sale, don't hesitate to contact me if you have any questions.

Going to update this ebook in a bit with some new de-tracing methods.

xantitaniumzx - September 27, 2017, 3:28 pm

I purchased your ebook a week ago or something and I'm highly interested in 1 on 1 mentoring that you are providing. Do I need to pay \$65 for mentoring or will I get it for cheaper because I already purchased the ebook (premium/advanced package) ?

Kind regards.

Meow - September 28, 2017, 9:56 am

(Sep 27, 2017 03:28 PM)xantitaniumzx Wrote: [\[CITE\]](#) I purchased your ebook a week ago or something and I'm highly interested in 1 on 1 mentoring that you are providing. i just want to do give a huge vouch for meow and his book. here is my testimonial :
purchased it a few days ago, even tho i had a lot of issues and he helped me with literally everything!!! he even threw in a little coaching/mentoring as a bonus because he saw a potential in me and my skills.he is very frendly and helpful all around,replies to emails/discord dms almost instantly.he is very good at what he does and he also showed me some things that are not in the ebook, probably private content.

without a doubt i will purchase anything that meow sells in the future because i can see how smart he is. thank you again meow,hope we can do business together in the future. ? ?

PM'd the guide to those who purchased but couldn't post, thanks.

Don't hesitate to contact me if you have any questions before purchasing.

President Trump - May 13, 2018, 7:28 am

Transaction ID: 7*484760M*3019*45

Package: Advanced

E-mail: q****9*****9@blurme.net or a9*9@tuta.io (not sure which one you'll see)

I still don't understand why you want us to post the details here and not through PM...

Delivered you the copy, thanks for purchasing.

President Trump - June 1, 2018, 10:36 am

Meow, please respond back to my PM's which you're obviously choosing to ignore.

President Trump - June 9, 2018, 4:55 am

Meow, if you don't respond back in 3 days I will be posting a scam report.

I've been more than patient.

Open it. I told you to provide me legit proof of why you want a refund, "uhhh i already knew all this information, this is public" is not really a valid proof. Thank you.

And check terms of service by the way. If you have any other inquiries PM me, no need to spam this thread.

(Scam report will void all your support, updates and refund).
