You going to risk your account getting banned what happens when your pics get no likes

There are many Services on Forums im not trusted enough yet im hopefully gonna make a shop soon

I Would charge 0.20 per 1000 Likes and \$3.20 per 1000 Followers

They come from HQ Profiles.

If you would like a service where somebody gains followers naturally

Follow for Follow or stuff like that Hashtags .. They are online too but expensive eh

That depends how you send them... You cannot send 5k Followers in 1 hour otherwise it gets banned ... There are methods around that

Depending on what type of accounts follow him it will be Fine!

Im experienced

EDIT: Why you buy an autofollow plan along with the followers

InstaMacro always worked well for me, but with InstaGress offline I think it's a little risky using these kinds of bots.
