Good god, how old were you when you joined HF? You joined 2008, that's 9 years ago - if he's older than twice your age, and he's 47, that's anything under 23.

$23 - 9 = 14$

$22 - 9 = 13$

$21 - 9 = 12$

$20 - 9 = 11$

$19 - 9 = 10$

We wont go younger. Damn man, you were a straight savage as a kid looking at your old posts.

That means you were making savage hacking groups at younger than 14.

He would have to personally share his address with you, or you can ask him to add the item to his wishlist and then you buy it off of there.
