Shame on you!

I do not want to offend anybody here but what the hell are you doing ?! Can't you just find a real girl to work on sexcam?

I moderate 2 accounts of 2 different girls. Maybe I have a smaller profit than I would have on the typical ewhoring, I have to share the profits with the girls but at least we are honored to customers. They get what they paid for. Fakechecks are real because the girls are real, clients send money and then they see a real girls on Skype.

Are you really so easy to cheat people around the world?

lucasYou are just the next retard dude! Ewhoring = boy pretending to be a girl (sell to customers); cam girl = girl interacting with customers to sell them her body

Why you come here when you already knew 90% of members are male!

You're mad because we're making more money than you and it makes your way of earning harder because of us? Do you even realize that some e-whorer hires real girls to make a pack for us? GTFO of here.
