Thread: [{RELEASE} Hypscure 3.8 \[RELEASE\] Obscure 3.8 crack.](#)

Hypnotoad. - August 19, 2017, 11:39 pm

cracked by me. join my discord for more cracks/leaks.

<https://t.me/S8JNBYYc> im #hypno4442

So I edited [Hypscure 3.8](#) It's Obscure 3.8 but I changed it up so its better.

[Video: <https://www.youtube.com/watch?v=RgUL5fjMzOw>]

also bonus video of me and noil owning noobs on velt.

funny memes

I don't give a fuck about shitty ghost clients but did you really crack this or did you just get a version with no protection and bytecode edited some strings?

Sparks.

I don't watch completely saturated videos of PvPing in Minecraft just to see hacks that people coded 4 years ago. I just jump to the conclusion that every client that comes here now is complete cancer and is a ghost client.

Jimey - August 23, 2017, 3:10 pm

your a fucking retard... really you thought this was a fucking ghost client 0.0

Sparks.

yea because thats how you add shit // change stuff in clients your bytecode edit it and you also dont need any past coding experience right

rederpz - August 23, 2017, 8:39 pm

whoa thats a nice gui whered u get it

Hypnotoad. - August 23, 2017, 9:30 pm

from aimware lmao

it looks like a csgo cheat.
