I have no idea about the other sites, but Satoshi Mines is as rigged as they come.

Don't waste your money on that site.

Eagerkid - August 21, 2017, 12:18 pm

I use betcoin when I play poker or sports gamble. It is a really nice site

Kamiya - August 21, 2017, 12:38 pm

I would say it is worth adding a poker site as well. I play full time on www.ignitioncasino.eu for their poker tournaments. They just had their SMPO Main Event which was a \$300,000 GTD prize pool. And lately, it has seemed nightly, their is a \$25K GTD \$50+\$5 buy in tourney.

They also have : Slots, tables games, etc.

Great site.

Ahhh betcoin! One of my favorite poker sites. I had a \$7k withdraw there and they double cashed me out sending me \$14k! It was beautiful. Ended up stopping after that lol. Ignition is the shit now.

Maybe you had \$7k in the tokens and they gave you \$14k in BTC...? When you cash in, they give you tokens to play with, so you are not playing 1:1 with btc. This is so that they can manage the prices and allow people to play with other currency

I understand, believe me, I used betcoin for a year+ before that cashout. They simple double cashed me out, identical amounts of bitcoin. It was not my first cashout, I went from sealswithclubs to betcoin to ignition. Betcoin just happened to give me a free \$7k.

Maybe I could even find it. Let me look into it :)

Edit : I totally found it from 2015.

Picture of them confirming the withdrawal was sent : <https://imgur.com/EaWSh74>

They literally double spent haha! Maybe it was not \$7k each, but still, that was 2 years ago, my memory failed me some. You can see 2 identical \$27,000 transactions to me.

I lied I guess I didn't stop playing there for a little longer, had a few more withdrawals lol :

I used to use cloudbet/nitrogen for BTC. The first one I've seen better lines than this by a whole 0.1 or -10. I'm looking mainly to just bet on games, specifically US sports.

You got a nice list there, been on those sites myself aswell already and everything you say is correct but personally I would swap #5 with [Stake](#).

[Stake](#) is an online casino where you can play; BlackJack, Mines, HiLo, Plinko, Diamond Poker, Keno, Roulette,... Ohh.. and in addition, there's a faucet aswell. If you have 0coins you can use the Faucet the amount off coins that you'll get will depend on your level.

It also has an active forums/community.

Feel free to try it out ;)
