Thread: [Free phone spamming script in python](#)

Charm ? - August 20, 2017, 2:41 pm

Uh. Yeah. I made this for fun because I realized how awesome and stupid python can be.

Other than that, I've seen spamming scripts on the premium market that do exactly this. And I am confused to why people would charge for a program this simple.

You can get it [here](#). <-----

please, please, please, leave something on the thread so others can see.

Would love to have the link considering im learning python

Vana - August 20, 2017, 2:43 pm

Does your script use twilio?

Charm ? - August 20, 2017, 2:45 pm

No, sorry. I am finding a way to send from a lot of different addresses. Considering finding a way to abuse imessage and/or allo.

Right now it just emails the gateway :/

Granny Bacon - August 20, 2017, 2:51 pm

Great script indeed, thanks alot

iamnotactiveanymore - August 20, 2017, 2:51 pm
