This is a detailed review (not in-depth ofcourse). I've bought this E-book with the knowing that I would get a PDF of about 10+ pages with requirements. Luckily it was way less than that :). The guide is pretty easy to understand and with the support of Riyu you can set it up with no more than 1-3 hours depending if you want to take your time or rush the setup. This method will actually double your investment (Do keep in mind you have to invest for yourself to make money.. LOGIC." The more you can spend the easier you double your money and the other way around.

Basically if you need some quick cash or even more. With this method you can easily get back the money you spent on the e-book in the first day.

BIG VOUCH for Riyu and his amazing support.

(Jul 20, 2017 05:43 PM)soueu Wrote: [\[CITE\]](#) I lost track of all the ebooks I bought here on HF over the years... NONE of them really worked! Either because the referred methods included were too much effort/trouble to little or no profit at all, or simply because they were outdated/patched/fixed.

And I gotta be honest here guys, I didn't have big hopes for this one either... Still, given the reviews on this thread I decided to pull the trigger, after all, it isn't that pricey atm, is it?

I still haven't put in pratice the content explained on the ebook yet, but after taking a deep look a it, I don't see a single reason why this wouldn't work. In fact, I would say that the "\$500+ PER DAY" wouldn't be unrealistic as one might think. Although it entirely depends on how much you decide to invest.

Anyway, I'll update my review once I give it a proper try and I'll surely let you guys know how it goes.

For now I'll leave it at this: His customer support alone is top notch and in my opinion that plays a big role on here.

PS: I'm not from US, so I'll also give it a review on that. (Not that I think it has a big influence on this method's effectiveness!)

Not to be funny but what have you made with this? have you got any earnings proof? the proof on the thread is from the previous owner, Not to mention if you can make 10k from the methods why is it being sold so \$30?

Dont take this statement personal either, Every eBook on HF is in the same boat, "Come and make 10k in a week! or How i made 10k in a week" Thats the sort of shit you would hear if you went on pornhub and got a pop up which was clearly fake, saying you could earn millions from doing what this guy says. I have bought so many ebooks on HF and i only just learnt my lesson a couple of months ago, They are all just the same CPA methods, oh and the most common ebay method thats already public, just worded differently.

Anyway, Nonetheless, Good luck with sales

It's the same product that Riyu was selling, nothing has changed, not even the amazing help. With that, every vouch for Riyu's product applies here.

It's simple: if you don't want to work, you won't like it. If you want to learn how to make money, get this product, put some work in, and make some money. Best support I've ever seen and the methods are constantly evolving as we find better ways. It's \$40, and you'll make hundreds, at a minimum. It's like Nike, Just Do It.
