Thread: [Linking my twitch prime loot to your accounts](#)

Ice. - August 21, 2017, 11:01 pm

I don't think this is considered a Non-Free account since I'm not giving away my accounts.

I got hooked up with a few twitch prime accounts for helping a HF member out so figured I'd help you all out now.

Any questions feel free to ask.
Current loot I can do this for:

Heroes of the storm legendary loot crate
warframe prime
For Honor - Champion Pack
lawbreakers In-Game loot
x25 Madden Legends

This requires your login info to link my twitch to your account so if your hesitant then feel free to wait for others to go first and leave feedback.

Unfortunately the subs were used by the user who gave me these or else I definitely would.

Message me your login and I'll link it, If I'm not mistaken and it hasn't changed that also comes with frost prime which is a really decent warframe for soloing defense missions.
