I'm interested of to who here plays this game. It's a web-based game and was at one point a pretty big sensation (making it to American Horror Story's show).

There seems to be casual players and people who play the more pseudo-competitive aspect of the game which can be seen a lot as teaming, so I ask to players, which one are you and how often do you play?

oRequiem - August 23, 2017, 11:12 pm

I use to play it a lot, I heard they updated the game quite a bit.
Is it better than how it was like 6 - 12 months ago?

I don't play it currently, but I might play it again.

I don't play it currently, but I might play it again.

At the moment it's ran by the koreans with their advanced teaming techniques, most of the US players can't seem to keep up with their meta and ultimately lose and rage about how there's still teamers, but I think it's easy to play, not sure if the game has changed a lot in the past half year or so besides them adding in some extra measures to stop teaming in FFA but people still do it.

So it's just like how the Koreans team in H1Z1? ?

.Alpha. - August 24, 2017, 12:59 pm

Used to play, got on the leaderboard then got raped by #1

malformed - August 24, 2017, 1:14 pm

I usually play it once a day, it's pretty fun if you know what you're doing.

Darksbies. - August 24, 2017, 10:03 pm

i dont play it that much it kinda is out now

Nangor - August 24, 2017, 10:17 pm

competitive aspect ?? what competitive aspect?? ahah sorry but i don't see any competitive aspect on this game

malformed - August 25, 2017, 2:34 pm

A lot of people don't, but there's tons of techniques you can use with someone aware of them also to completely dominate the server you're in, look at the asians, almost every server I get in they're always on the leaderboard wrecking everybody because the meta hasn't caught up yet.

severos - August 25, 2017, 10:58 pm

It was fun at first, but really after 3 weeks of playing it gets mega boring...

Fish - August 25, 2017, 11:04 pm

wow, this brings back memories. I use to play this every day for a while.

Cryptocoin - August 25, 2017, 11:07 pm

I used to play that game ALOT like 10-12 months ago, had so many fun time playing it tbh, play with friends in a discord and team up or something.

All play with da name HF? spread the word!!

Alpra - August 26, 2017, 5:55 am

Fun but stressful. Good for killing time.

Alex - September 2, 2017, 8:07 am

Oh man. Used to play this every now than then. Glad to see players still playing the game.
<http://slither.io/> was also a fun game if I remember correctly.

malformed - September 3, 2017, 11:16 am

Seems like the game died down a bit, it used to be at around 100k players world wide now it's down to like ~30k :/

Lantaric - September 5, 2017, 4:39 am

Used to play it if i only had a short amount of time or i was waiting in que of something

70s - September 5, 2017, 11:00 am

I played it alot when it first came out but idk just not that interesting to me that i would keep playing

bdawn - September 5, 2017, 11:04 am

I used to play it a lot...heck, played it when it was "small" and was at the early stages of its popularity. Played it with some of my fellow tech classmates...good times.

I don't play it anymore. Kind of a big time waster...lots of videogames are but this..this is just circles hahaha. I occasionally dabble in the other io games though every so often.

When it first came out, huh? Bet I ate you ? ? ?

nitrogram - September 7, 2017, 9:51 am

im too pro for this game guys

malformed - September 7, 2017, 10:31 am

I think a lot of people overlook the potential for this game as a competitive game.

maikuthe1 - September 7, 2017, 2:55 pm

Guys, you could try Mitos.is on Steam, its the same but with more Modes!

jeanporc512 - September 9, 2017, 7:46 am

Play petridish, it's like agar io but its better

Meave - September 9, 2017, 8:14 am

Miniclip bought it, that's when it was ruined, filled with b o t s..

I'll give it another go though!

malformed - September 9, 2017, 8:29 am

But it isn't now, the bots got patched. All of the companies running them got cease and desisted.

Ayro - September 23, 2017, 6:49 pm

The game is dead, it got heckin bamboozled. I actually tried playing it yesterday, it seems that there are so many people getting on and off it lags the servers. My computer isn't a potato so I doubt it's the computer. Maybe I'm just being cocky?

HUNK - September 24, 2017, 4:34 am

I used to play it, was a lot of fun to mess around on while I listened to podcasts. I loved the big trump/putin faces

JumpT - September 25, 2017, 4:52 am

It's kinda just a casual game that I played a few times. Nothing incredibly special about it, just for fun.

devh5002 - September 30, 2017, 10:20 am

Oh god, please no agar.io..

And don't get started on the spin-offs..
