Thread: [Account compromised.](#)

Purple Kief - August 23, 2017, 8:41 am

This is for another HF user who's account got compromised, apparently also his G2A.

<https://hastebin.com/oneneqizih.tex>

<https://hastebin.com/ojulahacig.tex>

5chn4pp - August 23, 2017, 12:19 pm

Tell this guy to run potentially malicious files in a virtual machine only. If I remember correctly, this is also the same guy with that sality infection.

I'm gonna delete some of his legit rats, this is because they are together with the malicious ones, so I cant really choose the ones to remove:

Download [fixlist.txt](#) file and save it to the Desktop.

NOTE: It's important that both files, FRST/FRST64 and fixlist.txt are in the same location or the fix will not work.

NOTICE: This script was written specifically for this user, for use on that particular machine. Running this on another machine may cause damage to your operating system

Run FRST/FRST64 and press the Fix button just once and wait.

If for some reason the tool needs a restart, please make sure you let the system restart normally. After that let the tool complete its run.

When finished FRST will generate a log on the Desktop (Fixlog.txt). Please post it to your reply.

Looks better.

Please download [RogueKiller](#) and save it to your desktop.Quit all running programs.

Right-click on the program and select Run as Administrator to start and when prompted allow it to run.

Read and accept the EULA (End User License Agreement)

Click Scan to scan the system.

When the scan completes select "Report", a log will open. Close the program > Don't Fix anything!

Post the contents of the log in your next reply.

nearly every crypter on this forum bypasses avast while eset and kaspersky detect everything, you can check it out yourself

Prawnster - August 27, 2017, 1:05 pm

(Aug 27, 2017 01:00 PM)DelziumTheProudWhale_temp Wrote: [\[CITE\]](#) nearly every crypter on this forum bypasses avast while eset and kaspersky detect everything, you can check it out yourself
Basically every crypter on this forum is copyasta and fails runtime, not a great example.

5chn4pp - August 27, 2017, 1:21 pm

(Aug 27, 2017 01:00 PM)DelziumTheProudWhale_temp Wrote: [\[CITE\]](#) nearly every crypter on this forum bypasses avast while eset and kaspersky detect everything, you can check it out yourself
I don't consider that a source, you are just assuming that a lot of them bypass avast.

Last time I checked, Avast was one of the best anti-viruses in detection rates:

<https://chart.av-comparatives.org/chart1.php>

Better than avira, bitdefender, emsisoft and even ESET, stop spreading dumb shit and do some

research please.

DelziumTheProudWhale_temp - August 27, 2017, 1:32 pm

(Aug 27, 2017 01:05 PM)Mazl Wrote: [\[CITE\]](#) Basically every crypter on this forum is cypypasta and fails runtime, not a great example.

well most of the famous ones, we are on hackforums it's normal to have a shitload of scam products

damn dude avast has more detection than every antivirus it must make it the best av out there

5chn4pp - August 27, 2017, 1:35 pm

(Aug 27, 2017 01:32 PM)DelziumTheProudWhale_temp Wrote: [\[CITE\]](#) damn dude avast has more detection than every antivirus it must make it the best av out there

Not my point, no anti-virus is best, but Avast is definitely not "shit" like you claim.

DelziumTheProudWhale_temp - August 27, 2017, 1:35 pm

(Aug 27, 2017 01:35 PM)Bromo-DragonFLY Wrote: [\[CITE\]](#) Not my point, no anti-virus is best, but Avast is definitely not "shit"

avast is not shit but it's not good either

5chn4pp - August 27, 2017, 1:37 pm

(Aug 27, 2017 01:35 PM)DelziumTheProudWhale_temp Wrote: [\[CITE\]](#) avast is not shit but it's not good either

Yet you fail to explain why? You said "crypters bypass it" but thats not a valid argument, SHOW ME.

DelziumTheProudWhale_temp - August 27, 2017, 1:39 pm

(Aug 27, 2017 01:37 PM)Bromo-DragonFLY Wrote: [\[CITE\]](#) Yet you fail to explain why? You said "crypters bypass it" but thats not a valid argument, SHOW ME.

crypters bypassing it is more than a valid argument, no one spreads malwares without crypting it

5chn4pp - August 27, 2017, 1:40 pm

(Aug 27, 2017 01:39 PM)DelziumTheProudWhale_temp Wrote: [\[CITE\]](#) crypters bypassing it is more than a valid argument, no one spreads malwares without crypting it

ESET and every other anti-virus can also be bypassed, what makes Avast different?

DelziumTheProudWhale_temp - August 27, 2017, 2:23 pm

(Aug 27, 2017 01:40 PM)Bromo-DragonFLY Wrote: [\[CITE\]](#) ESET and every other anti-virus can also be bypassed, what makes Avast different?

eset detects more malwares than avast that's the difference

5chn4pp - August 27, 2017, 2:25 pm

(Aug 27, 2017 02:23 PM)DelziumTheProudWhale_temp Wrote: [\[CITE\]](#) eset detects more malwares than avast that's the difference

Again, do you have a source? From what I've seen, Avasts detection rate is better than ESET as shown in post #17.

DelziumTheProudWhale_temp - August 27, 2017, 2:27 pm

(Aug 27, 2017 02:25 PM)Bromo-DragonFLY Wrote: [\[CITE\]](#) Again, do you have a source? From what I've seen, Avasts detection rate is better than ESET as shown in post #17.

every single crypter i have ever used has always been detected by eset and always bypassed avast, unless it had a bad icon/assembly

5chn4pp - August 27, 2017, 2:32 pm

(Aug 27, 2017 02:27 PM)DelziumTheProudWhale_temp Wrote: [\[CITE\]](#) every single crypter i have ever used has always been detected by eset and always bypassed avast, unless it had a bad icon/assembly

Right, because your experience with HF crypters is more credible than independent non-biased anti-virus testers, you could be lying. I could even counter that with "Well in my experience, crypters have always bypassed ESET and got detected by Avast"

Nobody will believe you if you have nothing to prove it with.

DelziumTheProudWhale_temp - August 27, 2017, 2:48 pm

buy a crypter and check it out yourself then

5chn4pp - August 27, 2017, 2:54 pm

(Aug 27, 2017 02:48 PM)DelziumTheProudWhale_temp Wrote: [\[CITE\]](#) buy a crypter and check it out yourself then

Lol I'm not going to waste my money on this argument, you know you are wrong and just jumped on the "Avast is bad" bandwagon, you have no proof therefore you lost.

bzr? - August 27, 2017, 2:56 pm

This thread has gotten derailed.

Has OP's situation been resolved?

5chn4pp - August 27, 2017, 2:57 pm

Looks way better, he is almost clean:

Please download [HitmanPro](#) and save it to your desktop. Quit all running programs.

Right-click on the program and select Run as Administrator to start and when prompted allow it to run.

Click the settings tab and go into Advanced, then enable Early Warning Scoring.

Click OK and Next then select No, I only want to perform a one-time scan to check this computer.

Click Next and it should start the scan, please be patient.

When the scan completes click "Save log", and save it to your desktop. Close the program > Don't Fix anything!

Post the contents of the log in your next reply.
