Thread: [torrent spreading](#)

colchester - August 24, 2017, 6:28 am

Hello guys

which would be the good torrent site to spread the RAT, tried piratebay but for some reason it doesnt let me sign up. Any suggestions guys

Thanks?

SkinnyPete - August 24, 2017, 8:57 am

colchester, use seed2peer.eu

I suggest you think twice about it before you rat random people.

Its illegal after all and with all this shit going down rn not a good time to "Spread" Many other legal ways to make money rating isn't worth it.
