Where can I find art similar or the same as this at wholesale pricing?

edit:

whoops... <https://canvascultures.com/>

Your best bet is trying to find the art itself or getting someone to create something similar to it and have it printed yourself. I have never used a service that produces canvas prints but a quick google search came up with this site <https://www.canvaschamp.com/canvas-prints> . You can do some more research but a 40" by 30" is about \$45 without shipping. That site you linked showed almost \$200 for that size.

I don't know if you will find the same prints for wholesale but this is your best bet if you can't find them.

Where can I find/buy the digital art photos like that?
